Long Talked-About Oswald Picture

This remarkable picture shows Lee Harvey Oswald with the rifle he used to kill President Kennedy and wound Gov. Connally of Texas. The pistol (on his hip) was used to murder Officer J. D. Tippit, who was trailing him down. Oswald probably used the same rifle in an attempt to kill Maj. Gen. Edwin A. Walker. This strange, bellicose photograph of the wanderer was taken by his wife, Mrs. Marina Oswald.
