U.S. House of Representatives, Subcommittee on Assassination

of John F. Kennedy of the Select Committee on Assassinations,

Washington, D.C.

The Subcommittee met, pursuant to notice, at 9:25 a.m. in room 340, Cannon House Office Building, Hon. Richardson Preyer (Chairman of the Subcommittee) presiding.

Present: Representatives Preyer, Burke, Dodd, Devine and Sawyer.

Also present: E. Berning; L. Svendsen; C. Berk; M. Goldsmith; B. Genzman; J. Blackmer; J. McDonald; G. R. Blakey; O. Wagner; B. Wolf; W. H. Cross.

Mr. Preyer. The Committee will come to order.

The Chair recognizes the Clerk of the Committee to read those who are officially designated to be on the Subcommittee today.

The Clerk. You, Mrs. Burke, Mr. Sawyer and Mr. Thone are regular members of the Kennedy Subcommittee. Mr. Devine will be substituting for Mr. Dodd.

Mr. Preyer. The Chair at this time will entertain a motion that today's hearings and one subsequent day of hearings be held

Mr. Preyer. We will now proceed in Executive Session. The Chair will ask the witness if he will be sworn at this time.

W # 1 2 2 4

Do you solemnly swear that the testimony you are about to give this Subcommittee will be the truth, the whole truth and nothing but the truth, so help you God?

Mr. Helms. I do, Mr. Chairman.

Mr. Preyer. You may be seated.

As we do to all witnesses, the Chair will give a brief statement concerning the subject of the investigation.

House Resolution 222 mandates the Committee to conduct a full and complete investigation and study of the circumstances surrounding the assassination and death of President John F. Kennedy including determining whether the existing laws of the United States concerning the investigation of the President 1 and the investigatory jurisdiction and capability of agencies and departments are adequate in their provisions and enforcement and there is full disclosure of evidence and information among agencies and departments of the United States government, and whether any evidence or information not in the possession of anagency or department would have been in assistance in investigating the assassination, and why such information was not provided by such agency or department; and to make recommendations to the House, if the Select Committee deems it appropriate, for amendment of existing legislation or the

Mr. Goldsmith. Mr. Ambassador, what was your position in 1963 when you were with the CIA?

Mr. Helms. In 1963, I had the title Deputy Director for Plans.

Mr. Goldsmith. Would you explain to the Committee what the organization function of the Deputy Director for Plans was in 1963?

Mr. Helms. In 1963, the Deputy Director for Plans was the Deputy Director who was in charge of -- I guess the simplest term is overseas operations. This entity of the CIA received its mandate from two documents, one known as MSC No. 5 and the other CID/2 or M-12.

In any event, the responsibility of this unit was to conduct espionage and counter-espionage and covert action out side the continental limits of the United States.

Mr. Goldsmith. Can you describe generally what your responsibilities were as head of that unit?

Mr. Helms. I was, in fact, in charge of the unit. In other words, I was under the aegis of the Director of Central Intelligence, to whom I reported. I was in charge of overseas operations.

Mr. Goldsmith. What role, if any, did the CIA have in the

investigation of the assassination of President Kennedy?

Mr. Helms. After this tragedy occurred and the Warren Commission was formed, there was every effort made in the Central Intelligence Agency to be as responsive as possible to request from the FBI who was conducting the investigation or a major portion of it, and the staff and members of the Warren Commission.

8 I would like to take this occasion to say we were all, I 9 think, in this country equally struck with the tragic circum-10 stances and we all felt, in the Agency, that we should do what we could to be as supportive as we possibly could of these other entities that had the lead in this investigation.

Mr. Goldsmith. Am I correct in assuming that -- and understandy your testimony to be -- that the basic role of the Agency at that time was to lend support to the FBI and to the Warren Commission?

Mr. Helms. Yes.

Mr. Goldsmith. Functioning in that capacity, how was the CIA's investigation organized?

This is a long time ago that these events took Mr. Helms. place. I guess it is all of 15 years.

I do not recall that, at the outset, that there was any 22 formal organizational change made to accommodate this investi-13 gation. My recollection is that we figured that most of our 24 contribution would focus on what had occurred in Mexico City 25

Mr. Helms. I think so. That is my recollection.

Mr. Goldsmith. What were your responsibilities with regard to the investigation that was undertaken by the Agency?

Mr. Helms. My recollection is that I felt my responsibility to be as responsive to whatever requests came from the FBI or the Warren Commission as we could. I, therefore, tried to see to it that these requests were fulfilled and that we made the requisite inquiry or whatever else would be required under the circumstances.

Mr. Goldsmith. Who, if anyone, was primarily responsible for coordinating the flow of information within the CIA to you and then from you to the Warren Commission?

Mr. Helms. Mr. Goldsmith, I do not recall, at this late date, anyway, any particular flow of information. An inquiry would come over. We would attempt to satisfy it and we would attempt to respond to it. But these inquiries came in individua? bits and pieces or as individual items, and my recollection would be that it would be hard to describe this flow of

1- 10

material. Each individual item that came along we took care of as best as we could.

As the weeks turned into months, we found that we were looking into matters overseas in Europe and various places, trying to run down individuals, identify bits and pieces that the Warren Commission was trying to clarify, and as a result of this, it was necessary to deal through all the area divisions of the so-called Operations Director, or Plans Director, at that time.

Mr. Goldsmith. Which staff or unit, if any, within the CIA was given primary responsibility for coordinating the investigation?

Mr. Helms. My recollection is that after the Warren Commission was established and it got its work underway that this was put into the counter-intelligence staff.

Mr. Goldsmith. Would you explain to the Committee what the organizational function or purpose of the counter-intelligence staff was?

Mr. Helms. Under the National Security Council intelligence directive, NSCID No. 5, there was a provision, a special provision in that document which dealt with counter-intelligence. I say a special provision, because in the area of positive intelligence the Agency's charter was to collect raw information and then pass it to the various other interested agencies of government.

To be more specific about this, if there was an allegation from the FBI that a spy at the United Nations had been transferred to some unit in Paris and it was the Agency's job, then, to try to see what that agent was up to. It was also the Agency's job to make an evaluation of whether he, indeed, was working for the Russians or the French or whatever the case might be.

Therefore, the counter-intelligence staff did have an evaluation function which the foreign intelligence staff, or the positive intelligence staff, did not.

Mr. Goldsmith. Is that why the CI staff was given primary responsibility for coordinating the investigation? ほうちょう たいぞう ちょうちょう ないない はんない ほう

Mr. Helms. Mr. Goldsmith, I do not recall any longer what considerations went into giving this job to the counterintelligence staff. I think it is logical to agree with what you say, but I do not recall any longer as it having been or what the controlling reasons were.

Mr. Goldsmith. You made reference earlier to **[Tehn SCELSO]** who originally was given responsibility to coordinating aspects of the investigation. Do you recall how long he retained this responsibility?

Mr. Helms. It is not only my recollection but in an effort

to clear my mind in preparation for this hearing, I did some checking with some former colleagues, and my recollection is that he sort of had the labor for $only^{\epsilon}a^{c}$ couple of months; after that, the job was turned over to the Counter-Intelligence Staff.

Do you recall why the transition was made from [SCELSO] to the CI staff?

Mr. Helms. I think, if recollection serves, that we could see that this investigation was broadening far beyond Mexico City and it did not make much sense to have it in the hands of a man who was running the Mexico City desk.

Mr. Goldsmith. When Mr. [Sce/So] was originally given the responsibility for coordinating the investigation, was he ever told by you that he would have exclusive control of the investigation?

Mr. Helms. I have no such recollection. I would see no reason to give him -- in fact, I could not see why it would have occurred to me to want to say that to him.

Mr. Goldsmith. Do you recall whether Mr. [Scelso] ever discussed with you problems that he was having with Mr. Angleton's in some way interfering with the investigation?

Mr. Helms. No, I do not recall this. He might have. Today, I do not recall this.

If you could identify what the troubles were, it might refresh my memory.

Mr. Goldsmith. Mr. [ScElso] has testified before the Committee in a deposition, and at that time he indicated that he was intially given responsibility for the investigation and was told more or less that he would be given free rein as to coordinating the information, and, I guess, sending it to the Warren Commission.

He indicated to us that Mr. Angleton was in some way interfering with his function as coordinator of the investigation and that at some time the investigation was turned over from [SCELSO] to Angleton. Does that refresh your memory at all? Mr. Helms. It does not, and may I say, I do not mean to add to the questions I have not been asked, but I cannot imagine giving anybody the kinds of assurances which Mr.[SCE4-Sc] :laims that he was given. We did not operate that way. Nobody had those assurances for anything, including me. 「「「「「「」」」」」

Mr. Goldsmith. Your position would be that the primary reason, as you recall it, for the investigation's being taken from [SCELS0] in a sense, and given to the CI staff was because the investigation began to undertake broader tones than was initially anticipated?

Mr. Helms. Yes. That is not only my recollection, but also it would seem to be in the year 1978, to have been a rather sensible thing to have done under the circumstances. Mr. Goldsmith. Mr. [SCELSO] also testified before the Committee that Mr. Angleton was talking to the FBI without

receiving authorization from anyone. Do you recall whether or not that was a problem at any time?

Mr. Helms. Well, Mr. Angleton was responsibile for the liaison of the Plans Director for the FBI and consequently he talked to the FBI liaison man and other FBI people every day of the week and probably several times a day.

Mr. Goldsmith. He was never, after the assassination, instructed not to talk to the FBI while Mr. [SCELSO] was coordinating the investigation?

Mr. Helms. Certainly not. We were doing our best to be as supportive and helpful as we could to the FBI.

Mr. Goldsmith. Did you serve as a point of contact between the Commission and the Agency, or was that responsibility given to someone else? いたいとうないのであるとなったいないである

Mr. Helms. I do not know that anyone in the Agency was ever designated as point of contact. I had dealings with the Commission because I had the part of the Agency that was doing most of the work for the Commission. This was a situation indicated by the display of forces and activity rather than by anything else. I do not recall having been designated as a particular point of contact. I do not recall anyone else's having been designated as a point of contact.

Mr. Goldsmith. Do you recall what responsibilities, if any, were given to Mr. Raymond Rocca?

Mr. Helms. I think in the counter-intelligence staff when

In other words, these Warren Commission queries would go to his desk, and the replies would come back from his desk.

Mr. Goldsmith. What role, if any, did Mr. McCone have in the investigation?

Mr. Helms. As the Director of the Agency, he had a very important role. Everything we did was on his say-so and there was a constant traffic between him and me about what we were doing with the Warren Commission, how we were handling these various matters. I believe Mr. McCone testified at the Warren Commission at one time. We would have had to brief him in preparation for his testimony and prepare the papers and so forth. He had a very real role.

Mr. Goldsmith. He was actually apprised of the developments and what was being given to the Warren Commission?

Mr. Helms. Literally not on a day to day basis, but he was kept informed in general terms and specific terms if necessary.

Mr. Goldsmith. Do you recall how many times a week you him would meet with Mr. McCone and discuss with them the developments with regard to the investigation of the assassination?

Mr. Helms. I am sorry, I do not. In the Agency procedure, there was a morning meeting with the Director every day, five

1-16

days a week, and I was at those meetings. What transpired at those meetings plus what transpired in his office in private meetings, I could not conceivably give you any idea.

Mr. Goldsmith. In any event, you would say that Mr. McCone was actively apprised and was not on the periphery of the developments?

Mr. Helm. Certainly not. He was actively apprised. He was very much interested, and we were all very much interested. Mr. Goldsmith. You made reference earlier to the division of responsibility in essence between the FBI and the CIA with regard to the investigation. Would you go into somewhat more detail as to the relationship between the CIA and FBI at that time?

Mr. Helms. This crime was committed on United States soil 14 Therefore, as far as the Federal government was concerned, the 15 primary investigating agency would have been the Federal 15 Bureau of Investigation without any question. The role of 17 the CIA would have been entirely supportive and it would have 13 been supportive in the sense of what material we are able 19 to acquire outside the continental limits of the United States 20 with reference to the investigation. 21

This was the division of labor between the FBI and the CIA. The CIA's mandate started at the ocean front. Or, to put it another way, the FBI's mandate started as soon as you crossed into the continental limits of the United States. For

investigative purposes, the Agency had no investigative role inside the United States at all. So when I used here the word "supportive," I meant that in the literal sense of the term. We are trying to support the FBI and support the Warren Commission and be responsive to their requests, but we were not initiating any investigations of our own or, to my recollection, were we ever asked to.

Mr. Goldsmith. In your opinion, was that division of responsibility satisfactory?

Mr. Helms. It was law. It was not a question of whether it was satisfactory or not; it was law.

Mr. Goldsmith. I understand that. One of the purposes of this investigation is to examine the state of the law at that time and the manner in which the Agency has gone about investigating the death of the President. So, at this time, I am asking you whether in your opinion that statement of facts was satisfactory towards conducting the investigation that was involved?

Mr. Helms. I do not know, Mr. Goldsmith, whether on such short notice I would want to make such a serious judgment as that. It does seem to me in any investigation that one organization has to have the primary role, otherwise you have a great deal of confusion. I think it was proper that the FBI should have the primary role in this case. I do not recall ever having felt disadvantaged in any way in the CIA

Mr. Helms. The only matter that comes readily to mind was the difference in the evaluation of the material of the Soviet defector named Nosenko gave. My recollection is that what this man had to say when he arrived in the United States around the time of the assassination was passed by the FBI to the Warren Commission exactly as he said it.

The CIA was responsible for handling defectors after they came to the United States and did not feel that the bona fides or the good faith and credibility of this defector had been established at this stage of the game, and the Central Intelligence Agency felt it necessary to make that known to the Warren Commission.

13 There, indeed, there was a difference between the two 19 agencies.

20 Mr. Goldsmith. Aside from that substantive disagreement 21 in the day-to-day relationship of the Bureau, can you recall 22 whether there were problems in terms of coordinating the 23 investigation?

Mr. Helms. I do not recall any other problems. Mr. Goldsmith. Was information freely passed between the

Mr. Helms. My best recollection is that there were not difficulties between the two agencies over this. As I said at the outset, we were doing our best to be supportive. We were passing along, I believe, everything that was relative.

I do recall when we got into certain sensitive areas a couple of times during the investigation, if we felt we could not pass a piece of paper to the Warren Commission, for example, we would go down and talk to the staff man to try to apprise them orally of what our predicament was.

In other words, I assure you, Mr. Goldsmith, that the whole thrust of the Agency was to be as helpful as we possibly could and to go over the edge, if necessary.

Mr. Goldsmith. I understand. In this case, my question was whether the FBI was also sending information to the Agency? In other words, was the FBI sharing information for your purposes?

Mr. Helms. I do not recall any complaints on those grounds. Maybe they were and maybe they were not. It is a little bit difficult, sometimes, to know whether you are getting something the existence of which you have never heard.

emphasis to the particular areas, geographic areas?

Mr. Helms. I think that the entire United States government, not only the CIA, was very concerned as to whether there would be evidence of some foreign conspiracy to assassinate President Kennedy. They were concerned whether the Soviets were involved in this. They were concerned whether the Cubans were involved in this. They were concerned that somebody may have been involved in it.

1-21

I think we were all preoccupied with this. There is hardly any question there was more discussed during those days as to who was behind Lee Harvey Oswald, if indeed he was the man who was responsible, what had affected his life, why had he done the things he had done, and so forth.

So there was a great deal of conjecturing going on. I:= think if the Chair would indulge me a minute, I would like to make a comment about the various investigations into the assassination of President Kennedy based on the long years I have spent in the intelligence business, and that is, until the day that the KGB in Moscow or the Cuban intelligence in Havanna is prepared to turngover their files to the U.S. as to what their relationships to these various people were, it is going to be extraordinarily difficult to tidy up this case, finally and conclusively.

A great deal of investigation can be done, and has been 24 It has been done conscientiously. I think people have done. 25

tried over the years their very best to resolve a host of differences. I recognize also that allegations have been made that certain areas have not been as aggressively investigated as they might have been. That alloway be true.

But it really does not make any difference what is done in this connection until you can get those governments to lay before you their records of how they dealt with Lee Harvey Oswald, or anybody else who is relevant in this case.

And, based on past experience, I doubt very much whether you are going to get the compliance of the Soviets or the Cuban government.

But I want to make this comment, because it is extremely important and very relevant, that these cases are untidy. It is only in books that they end up with all the little things worked out at the end and tied off neatly.

This aura of suspicion and all the rest of it hangs in the air. Undoubtedly that is why this Committee was formed, so undoubtedly this could be put to rest. I promise you, there is this one last step and until it can be taken, this is never going to be laid to rest.

Mr. Devine. Do you agree, Mr. Helms, that the likelihood of that happening is remote?

Mr. Helms. Remote. Yes, sir, I agree with that. Mr. Goldsmith. Mr. Helms, I believe my question was --Mr. Helms. Excuse me, Mr. Goldsmith. I did not mean to

digress. I thought that I would like to get this off my chest. Mr. Goldsmith. I understand.

Myquestion was, what areas received primary emphasis. I think your answer, in part, was the area of foreign conspiracy.

Are you able to give any more detail on what aspects of the foreign conspiracy question were investigated?

Mr. Helms. I think we were very concerned about the Soviet aspects of this, primarily. Why? Because Lee Harvey Oswald had spent time in the Soviet Union, time which never had been satisfactorily explained as far as we knew.

Nosenko arrives as a defector. There were a lot of very suspicious circumstances surrounding the whole way and timing of his defection. So that there were several areas there that seemed to require not only investigation but thought and analysis and everything else that could be given to it.

I would like to say here that when a tragedy of the magnitude of President Kennedy's assassination occurs in this country, it is at this point that in our international relations we have to suddenly become very careful, because accusing a foreign government of having been responsible for this act is tearing the veil about as nastily as one can, and this can lead to a whole series of counter-actions which might be very unpleasant.

I think all of us were keenly aware of this. It was not only true of the Soviet Union, but also true of Cuba, that

President Kennedy's whole approach to the Cuban government

So that we were treading very lightly, but I am sure that we were very concerned at the time as to what we might end up with. And this was not improved or our mood about this was not improved when Khruschev runs to Drew Pearson in Egypt when they were visiting there and tells Pearson that the Soviets, that this was a conspiracy of the right to assassinate President Kennedy. Why does he make this remark to Drew Pearson? What is his purpose?= What was behind this?

Is it a smoke screen to cover up his own complicity? The air was full of these things. Therefore, we were very conscious of it and we were doing what we could to make sense out of it.

Mr. Goldsmith. Mr. Helms, was all information pertinent to the Warren Commission's work promptly given to the Warren Commission?

Mr. Helms. As far as I know. If there are indications or evidence that it was not, I do not recall having been aware of any sins of omission at the time.

Mr. Goldsmith. On the average, would you be able to tell us how much time passed from the moment that information was received by the Agency until it went to the Commission?

14

Mr. Helms. My recollection is that as soon as we were able to satisfy an inquiry, we sent the reply back. And some

Mr. McCone testified before the Warren Commission. I believe I was with Mr. McCone the day he testified, although I do not even have a clear recollection of that anymore, and I have not refreshed my memory from the Warren Commission Report.

These so-called assassination plots I believe if I may put it this way -- a sloppy term which has come to cover some devices which the Church Committee found evidence that the Agency had on its drawing board, if you want to put it that way -- the only assassination plot that had any even semblance or substance to it was one involving a couple of Mafia chieftains and which were supposed to have taken place before the Bay of Pigs invasion.

I guess you could call that an assassination plot.

As far as the AMLASH business was concerned, I had a great deal to do with the AMLASH operation and, as has been publicly stated before and I will publicly state it again, that was not an assassination plot. The effort of working with AMLASH was to see if we could find a political alternative to Castro and a man who was prepared to lead a revolt against Castro in political and military terms, inside Havanna.

The assassination aspects of this which have been so highly publicized was an issue that Mr. Cubella himself kept raising, which was the simplest way to perform his mission was to try to get rid of Castro physically. But he never attempted it, as far as I know, and President Kennedy had been assassinated

before there was any possibility of his having attempted it, at least with the connivance of the Agency.

I think if one reads the record carefully of these various facts, you will find what I say is supported by the record. Mr. Goldsmith. Was Mr. Cubella given any support by the Agency with regard to his desire to assassinate Fidel Castro? Mr. Helms. In the end he was not, as far as I know. Mr. Goldsmith. Before the end, was he at any time given any support?

Mr. Helms. No.

There is the famous story of the poison pen but he did not take the poisen pen. He simply returned it to the case officer who offered it to him. There was no other device given to him, as far as I am aware.

Mr. Goldsmith. You made reference earlier to Mr. Dulles' 15 being on the Commission. Do you know whether Mr. Dulles actually 16 knew about the so-called anti-Castro assassination plots? 17 Mr. Helms. I do not have that firsthand, because that particular 20 operation was being handled by Mr. Bissell and Colonel Edwards 21 with Mr. Dulles and General Cabell and I was not brought in on 22 it. .3

on what came out of the Church Committee hearings.

Mr. Goldsmith. Do you know whether Mr. McCone knew of the plots against Castro?

Mr. Helms. Yes, I think he did. Well, eventually he did. I do not know exactly at what juncture he was informed about them.

Mr. Goldsmith. In any event, did you at any time inform the Warren Commission about these plots?

Mr. Helms. I did not talk to the Warren Commission about them.

Mr. Goldsmith. Would your position be that the anti-Castro plots were not relevant to the Warren Commission's investigation?

Mr. Helms. I would not put it that way, Mr. Goldsmith. I would not like to agree with that statement.

Perhaps they were relevant. I think that is a matter of opinion.

What I would like to say, however, is I have noted in the last two or three years that various witnesses have come forward to various Congressional Committees saying if they had known this or known that or known something else their investigation, their attitude, their handling of the matter would have been entirely different. But how it would have been different is not really explained anyplace that I can find. I would like, Mr. Chairman, to make another comment, if I may, please. In 1962, in October, we had the Cuban missile crisis and to recall and refresh your memory, this was the occasion on which Fidel Castro and Khruschev connived to put intermediate range ballistic missiles on Cuban soil which had a range which could fire into the United States at least to the middle of the country, if not all the way through to California.

If Khruschev had been able to pull off this trick, it would have been the military coup of the century. The Russians would, in the military sense, achieve what, up to that time, they had not been able to achieve otherwise -- to hold the United States hostage. 1

1.20

At that time, the Soviets did not have intercontinental ballistic missiles with the range or the accuracy to fire from Soviet soil to the United States. They have since achieved this capability but they did not have it in 1963, I believe the military evidence will show.

Obviously, President Kennedy through some good intelligence was provided, and by handling the situation with great skill able to get those missiles withdrawn and also the bombers, the IL-28's which came with them. But I do not think that this operation endeared Fidel Castro to John F. Kennedy.

That was in October. In December the brigade which had gone assure at the Bay of Pigs, the brigade of Cuban exiles TOP SECRET

referred to as No. 2506, was finally gotten out of Cuban jails as a result of an exchange organized by Attorney General Robert Kennedy of payments of medical supplies and pharmaceuticals and so forth. And this group came back and they were brought together in the Orange Bowl in Miami and President Kennedy addressed him.

On that ocassion, he said words to the effect that I will return this flag to this brigade in a free Hananna. I think those words are unambiguous.

So in this period of the months prior to his assassination, there certainly was bad blood between President Kennedy and Fidel Castro. This was known to everybody. Whether this blood was made worse, or not made worse, by so-called assassination plots which maybe Castro knew about, or maybe he did not know about, I am unable to say.

But I think there has been a gross exaggeration which has taken place about the role that the so-called assassination plots might have played in the Warren Commission investigation.

Ladies and gentlemen, what different conclusion would you suggest that the Warren Commission should have come to?

Mr. Goldsmith. Mr. Helms, I take it from your testimony
that your position is that the anti-Castro plots, in fact,
were relevant to the Warren Commission's work; and, in light
of that, the Committee would like to be informed as to why
the Warren Commission was not told by you of the anti-Castro

Mr. Helms. I have never been asked to testify before the Warren Commission about our operations.

1-31

Mr. Goldsmith. If the Warren Commission did not know of the operation, it certainly was not in a position to ask you about it.

Is that not true?

Mr. Helms. Yes, but how do you know they did not know about it? How do you know Mr. Dulles had not told them? How was I to know that?

And besides, I was not the Director of the Agency and in the CIA, you did not go traipsing around to the Warren Commission or to Congressional Committees or to anyplace else without the Director's permission.

Mr. Goldsmith. Did you ever discuss with the Director whether the Warren Commission should be informed of the anti-Castro assassination plots?

Mr. Helms. I did not, as far as I recall.

Mr. Goldsmith. Did you know, in 1963, what consideration if any the Warren Commission was giving to the theory that the Kennedy assassination was part of a Cuban conspiracy, a Castro conspiracy?

Mr. Helms. I do not know what consideration was given to it.

or the Agency itself that the Agency would have, in the interests of protecting its operations, would have done its best to find out if this were true. It is just maybe they were not able to find out. I would have thought that there would have been an ongoing series of operations in this regard.

Mr. Goldsmith. You do not recall specifically one way or another?

Mr. Helms. No.

Mr. Goldsmith. Was the fact that the Warren Commission was not told about the anti-Castro assassination plots, at least by you, did that reflect a desire on your part to avoid having (embarrassed) the Agency?

Mr. Helms. I do not recall ever having any thoughts of that kind in regard to the investigation of the Warren Commission. One of the difficulties I had with this question is 16 ever since Senator Schweiker's report was made, which made a great deal out of this, I have never had an opportunity to 18 talk to the people who were associated with me at the time to 19 find out just exactly who knew what about what in those days. 20 The United States, after all, is a nation of Monday morning 21 quarterbacks and it seems to me this is one of the outstanding 22 examples of Monday morning quarterbacking. 13

Mr. Goldsmith. Mr. Ambassador, was there any desire on your part to avoid an international crisis by not telling the Warren Commission about the anti-Castro assassination plots?

The thought never occurred to me, Mr. Goldsmith Mr. Helms. Mr. Goldsmith. In summary then, is it your position that the Agency gave the Warren Commission information only in response to specific requests by the Warren Commission?

Mr. Helms. That is correct.

I want to modify that by saying that memory is fallible. There may have been times or circumstances under which something different might have occurred, but my recollection of those days is that we were attempting to be responsive and supportive of the FBI and the Warren Commission. When they asked for something, we gave it to them.

As far as our volunteering information is concerned, I have no recollection of whether we volunteered it or not.

Mr. Goldsmith. In retrospect, do you think that was a workable arrangement?

Mr. Helms. Yes, I thought so.

Mr. Goldsmith. Mr. Ambassador, other than the anti-Castro assassination plots, was there any other information pertaining . 19 metive, to a possible mode of means or opportunity to kill the 20 President that the Warren Commission was not told about? 21 I do not know, Mr. Goldsmith. Mr. Helms. 22

Mr. Goldsmith. Mr. Ambassador, if you would give me a term, I will make an effort to accommodate you.

That would be kind of you. I think what I Mr. Helms. would like to say is that 6 was President Johnson informed of our efforts to get rid of Fidel Castro.

Mr. Goldsmith. Will you answer that question? Mr. Helms. Yes, he was informed.

Mr. Goldsmith. At what time?

Mr. Helms. At various times after he became President. Mr. Goldsmith. Was he told specifically about your efforts to get rid of Castro prior to the assassination of President Kennedy?

Mr. Helms. Yes, he was.

Mr. Goldsmith. Do you recall whether he was specifically told about the AMLASH plot?

Mr. Helms. I do not recall whether I ever discussed the AMLASH plot, or the AMLASH operation, as such. I do not have any recollection of it.

Mr. Goldsmith. Do you recall whether President Johnson was apprised of the involvement of some of the Mafia figures in this operation?

Mr. Helms. He was.

Mr. Goldsmith. Do you recall when he was so apprised? Mr. Helms. I do.

1-35

Mr. Goldsmith. Would you so inform the Committee? I have not testified to this before Mr. Helms. Yes. because I have no written documentation to support this, but I reported these various matters to President Johnson on May 10th, I believe, 1967.

Mr. Goldsmith. How are you able to remember the date so well at this time, Mr. Ambassador?

Mr. Helms. I do not like the implication of the question, at this time.

Mr. Goldsmith. Mr. Ambassador, I am not in a position to quarrel with you over the way my questions are phrased. Ι would like to know --

Mr. Helms. The implication is that I declined to identify it: on some previous occasion.

Mr. Goldsmith. I am sorry. That is not the inference I was intending to suggest. My question is a very simple one: how are you able to remember today the specific date?

Mr. Helms. After I returned from Tehran and had some time available to me, I had an opportunity to dig back and get 19 ahold of some colleagues and talk to various people to try to 20 range in on what time period it was that these matters came up 21 and how they were dealt with, the so-called IG Report that I 22 asked to have done at the Agency. 13

Therefore I wanted to try to specify the date on which I reported to President Johnson about this IG Report. I was able

to relate it to another matter I discussed with him on that occasion, and therefore I was able to specify the date.

Mr. Goldsmith. Mr. Ambassador, what effect, if any, did the CIA's concern with protecting sources and methods as provided by law have on the information that was provided to the Warren Commission?

Mr. Prever. This is the second bell on the vote. Before we go into that answer, the Committee will stand in recess for about ten minutes.

Mr. Prever. The Committee will resume its hearing.

I understand that it is agreeable with you to proceed at this time, even in the absence of a quorum.

Mr. Helms. Certainly, Mr. Chairman.

Mr. Goldsmith. Mr. Ambassador, I repeat the question that I asked you prior to the brief recess. What effect, if any, did the agency's concern for protecting sensitive sources and methods have on the information that it provided to the Warren Commission?

Mr. Helms. Mr. Goldsmith, I cannot recall any specific circumstances if there were any where this question of protecting sensitive sources and methods caused us difficulty.

As I said earlier this morning, somewhere in the back of 23 my mind there may have been an instance or two where we did not 24 particularly want to put something in writing to the Warren

Commission so that it would come to reside in our files, become a part of the permanent record.

But in a couple of those cases — and I believe there were someone went down and talked to a member, a couple of members of the Warren Commission staff so that they would be privy to the information without necessarily having it in writing.

I do want to repeat what I said earlier, that we were doing our level best to be responsive and we were bending over backward or frontward, any way you like, to be as responsive as we could, even when sensitive sources and methods were involved.

I think that you will find, if I just might add this, that we turned over to the FBI, for example, material from a mailordering operation which the Agency was conducting in those days which was considered about as sensitive as anything that we were doing.

Mr. Goldsmith. When the Warren Commission staff or members were informed about information that either reflected a sensitive agency method or information that came from a sensitive agency source, was the source of that information actually given to the Warren Commission?

Mr. Helms. I do not know. I am sorry, I do not know. We very seldom gave the names of sources to anybody, under any circumstances. We usually tried to describe the source in some fashion which would be helpful in evaluating the material. 1.4 M W.

But we practically never gave the names of individuals who were informants or agents or anything of that kind.

Mr. Goldsmith. Are you telling the Committee, then, while the Warren Commission might be told about the substance of the information generated from a sensitive source or method of operation that the specific source and method would not necessarily be disclosed?

Mr. Helms. Not necessarily, but I do not know what happened in every instance. I am really trying to give you what was the normal operating procedure.

Mr. Goldsmith. At this time, Mr. Ambassador, I would like
you to refer b what has been marked as CIA Document No. 1907.
For your reference purposes, I would like to indicate that you,
have been given a series of volumes of materials, materials
containing CIA documents.

The Agency has numbered those documents for the Committee. You will note if you open up, in this case, volume number two, on the lower right-hand corner of each page, it states page 1 of -- in this case, 212.

There are 212 pages in this volume. That is not the document number I am referring to. Immediately above that on each page there is another number of four digits -- for example, 1874 appears on page 1.

When I say CIA Document No. 1907, that would refer to what appears on page 1034 of 212. For the future, I will be

referring only to the CIA identification number. 1 2 Mr. Helms. All right. 3 Mr. Goldsmith. That is the practice we have been utilizing throughout the hearing in depositions. 4 CIA 1907 dis a brief for presentation to the President's 5 Commission on the Assassination of President Kennedy and I would 6 ask you to look at CIA No. 1910 and read to yourself paragraph 7 8 E. Mr. Helms. Paragraph E. 9 Mr. Goldsmith. Yes. 10 (Pause) 11 Mr. Helms. All right. 72 Mr. Goldsmith. Mr. Ambassador, does this paragraph 13 accurately reflect the Agency's attitude towards sensitive 14 sources and methods and the way in which information touching - 15 upon sensitive sources and methods was handled with the Warren 16 Commission? .17 I believe so. I do not believe any reason to Mr. Helms. 13 quarrel with what is in that paragraph. 19 Mr. Goldsmith. In the last sentence of this paragraph, there 20 is a reference to channels and procedures that have functioned 21 very well between the Commission and the Agency. Would you 22 apprise the Committee as to specifically which channels and 73 procedures were established in communicating this information 24 to the Warren Commission? 25

Mexico City Station have in the Agency's investigation of the assassination?

Mr. Goldsmith. Well, I believe that the Mexico City station had a rather key role at the outset because it was the Mexico City station that produced the information prior to President Kennedy's assassination that a fellow named Oswald had indeed visited the Soviet and Cuban Embassies in Mexico City and this had been made a matter of record in the United States government.

So I think it was in this context that the Mexico City station obviously after the assassination was being asked about the circumstances surrounding this report and what additional information they had and was it indeed Lee Harvey Oswald.

And then I believe there was a great to-do about the fact that his name was slightly wrong in the telegram, or the dissemination that was made.

All of these things I have heard in recent times. But his having been to the Cuban and Soviet Embassies in Mexico City, obviously was a very important part of the initial impressions one had that it was Oswald that had committed the assassination.

Mr. Goldsmith. Is it appropriate to say, relative to the roles played by other overseas stations, the Mexico City Station played a greater role in the Agency's mission? Instigution

Mr. Goldsmith. Are you able to give the Committee an assessment of Mr. Scott's competence as the Chief of Station?

Mr. Helms ... Well, in the first place, Mr. Scott came to the CIA after having been an agent for some years of the FBI. He was a man of experience. He served a long time in Mexico City, or =a comparative long time if you look at these overseas assignments in terms of a tour of duty of two or three years. He spoke Spanish, and he was regarded as one of our more competent station chiefs.

Mr. Goldsmith. Do you know whether or not Mr. Scott maintained an adequate system of records and files in the Mexico City station?

Mr. Helms. I do not have any recollection of this. In fact, I do not recollect this having been an issue.

Mr. Goldsmith. Do you know whether Mr. Scott had a personal safe?

Mr. Helms. No.

Mr. Goldsmith. Is it customary for agency chiefs of station to maintain a personal safe?

Let me just say here that this is not solid information I am giving you, but there may have been some concern that maybe Scott had something in his safe that might affect the Agency's work and the Agency just wanted to double check and be sure there was not anything of that kind there. I think that would be a normal practice, particularly if a fellow died so suddenly and there we were.

I think in regard to the assassination the branch that ran or had the control or support of the Mexico City station, the Chief of the Western Hemisphere division, the staff chiefs who are responsible for various aspects of the operation like positive intelligence and counter-intelligence, I undoubtedly read a number of them myself. I just do not know which ones anymore.

Mr. Goldsmith. Earlier we made reference to Mr. [SCELSO] being responsible for reviewing cable traffic pertaining to the assassination. After the responsibility for the investigation was given to the CI staff, do you know whether anyone on the CI staff was given the responsibility for reviewing the cable traffic that flowed from the Mexico City station and headquarters?

Mr. Goldsmith. Did the Mexico City station have any surveillance operations in effect in 1963 against the Cuban and Soviet embassy and consulates?

My recollection was during that period they not Mr. Helms. only had photographic surveillance of both of the embassies, but they also had telephonic or wiretaps on both of the embassies.

Mr. Goldsmith. Was information related to Oswald obtained as a result of these operations?

Mr. Helms. Yes, it was.

For the record, this is a cable dated 20 December 1963 to Mexico City from the Director.

Mr. Helms. All right.

Mr. Goldsmith. Paragraph 1 makes reference to the Agency's intention to eliminate mention of the telephone taps in dealing with the Warren Commission. Do you recall how long the Agency's plan to eliminate mention of these taps in communicating with the Warren Commission remained in effect?

Mr. Helms. I have no idea.

I am sorry. I have no information whatever.

Mr. Goldsmith. Are you certain, however, that the Warren Commission was told specifically about the telephone operations? Mr. Helms. No, I am not. I just assumed that it was at some point.

Mr. Goldsmith. Again, to what extent, if any, did the Agency's concern for protecting under the law sensitive sources and methods interfere with the information that was being given to the Warren Commission? のないので、「ない」のできた。

I have been doing the best I can. It was my impression at the time that one way or another staff members of the Commission were informed of the fact of the way the information had been acquired because it was rather central to the investigation.

If this is not correct, then I am wrong. It was my impression that at some time or other this was made clear to them, I assume off the record.

Mr. Goldsmith. Mr. Ambassador, I want to clarify, for 10 purposes of this record, that I have shown you just one cable -11 dated December 20th. Subsequently, the Warren Commission was 12 given information.

I do not want to suggest to you that the information was 14 not given and the specific sources were not made available 15 to the Warren Commission. 16

The Committee, at this point, is concerned with what 17 appears to be an early plan not to make reference of these 13 sources and methods, but I do not want you to think that you 19 are being shown exhibits out of context. 20

Mr. Helms. I do not know whether it has been made, the Committee has been made aware of the fact that the reason for the sensitivity of these telephone taps and the surveillance was not only because it was sensitive from the Agency's standpoint, but the telephone taps were running in conjunction with 25

the Jand therefore, if this had become public knowledge, it would have caused very bad feelings between Mexico and the United States, and that was the reason.

Mr. Goldsmith. At this time, I would ask that you refer to CIA No. 177 which appears in Volume 1. For the record, that is a cable dated October 9, 1963 to the Director from the Mexico City station.

Mr. Helms. Do you want me to read the cable? Mr. Goldsmith. Please read it to yourself, sir. (Pause)

Mr. Helms. I have read it.

Mr. Goldsmith. In the first paragraph of this cable, it refers to LIENVOY. Is that a reference to the telephonic surveillance operation?

Mr. Helms. I do not recall anymore anything about these cryptonyms. My assumption in reading this would be that probably it did. I do not know for sure.

Mr. Goldsmith. From the context of the second paragraph EMATY which makes reference to the source being LIANPY, would you say that that, in all likelihood, refers to the photo operation? EMATY Mr. Helms. LIANPY?

Mr. Goldsmith. Yes.

Mr. Helms. I assume so. I do not recall any more. Mr. Goldsmith. Does paragraph 2 contain a description of

someone that the México City Station thought was Oswald?

Mr. Helms. I guess it was. That is the only assumption I can make based on the context of the telegram.

Mr. Goldsmith. The description of the individual involved is not an accurate description of Oswald, is it?

Mr. Helms. Not based on what I have learned about Oswald since.

Mr. Goldsmith. Do you know how this individual mistakenly was linked to Oswald?

Mr. Helms. No, I do not.

Mr. Goldsmith. Was the Mexico City Station ever asked to explain why it thought that the individual referred to in paragraph 2 was, in fact, Lee Harvey Oswald?

Mr. Helms. I have a general impression that there was a great effort made to clarify who this man was. Is this the fellow they have never identified? This photograph has been kicking around for years.

Mr. Goldsmith. Yes. Let me show you that photograph now to refresh your memory.

For the record, this corresponds with Exhibit No. 1 of the Warren Commission.

Mr. Helms. Thank you, Mr. Goldstein. That is the photograph I recollect as being the one that every effort was being made to find out who that man was. Has he ever been identified? ううたいできる

1 Mr. Goldsmith. Mr. Helms, that was my next question. 2 Was the Agency ever able to identify this individual? 3 Mr. Helms. Not to the best of my knowledge. 4 Mr. Goldsmith. Did the Mexico City Station ever explain 5 to Headquarters how this individual was linked to Oswald? á Mr. Helms. If they did, I was never made privy to it. 7 think it was obviously a mistake of some sort. 8 All I recall is that a valiant effort was made to find 9 out who this fellow was. 10 Mr. Goldsmith. Was consideration ever given to the 11 possibility that this person may have been an Oswald imposter? I do not know. I do not recall the circum-12 Mr. Helms. 13 stances anymore. I am sorry. Mr. Goldsmith. Mr. Ambassador, it seems to me that the 14 question of whether this individual was an Oswald imposter 15 presents a significant issue. By virtue of you not being able 16 to recall whether or not this was examined, is it fair to say 17 that it probably was not considered? 13 In other words, I am suggesting that, because the issue 19

is a significant one, had it been considered, you would remember 20 it. 21

Mr. Helms. You see, Mr. Goldsmith, I can see the signi-22 ficance of the issue, but if we do not know who the man was, 13 we do not know where he was. How were we going to investigate 24 this! If I may submit, in fairness, we did not have access to 25

the Cuban authorities to go to their embassy and say, who is this fellow seen coming out of your embassy. We did not have it with the Russians either. Where were we to go to investigate this matter?

Mr. Goldsmith. In any event, you do not recall whether this issue was investigated?

Mr. Helms. No, I do not, but I do not know how it would have been investigated.

Mr. Goldsmith. When was the Warren Commission told about the picture to which reference is made in paragraph 3 of this cable?

Mr. Helms. I have no idea.

Mr. Goldsmith. Was the Warren Commission ever told about
 14 the specific connection between the picture and the cable
 15 reporting Oswald's contact with the Embassy?

Mr. Helms. I would have imagined that the Agency did everything that it could to work with the Warren Commission staff in trying to find out who this man was, what his significance might be. I cannot imagine that this was not thoroughly gone into.

If there were any evidence not thoroughly gone into, Iwould not understand it.

Mr. Goldsmith. Here is an example of a situation where I felt the Warren Commission, by virtue of not having known of this picture or of the cable perhaps did not ask the Agency

Is my recollection not accurate that we had Mr. Helms. the FBI working with us to try to locate this man? It seers. to me that everybody we might find who might have conceivably had some means of identifying him was asked about it. I do not think we were making any secret of it, that we could not identify him. We were trying to get some help to do it.

I do not think this is one of these closely-guarded 9 secrets, nor did the Agency have any motive for passing that 10 along to anyone who was interested.

Mr. Goldsmith. For the purpose of attempting to refresh 12 your memory on this issue, the way that the Warren Commission, 13 at least in the record, was apprised of this photograph was 14 in February, 1964, Marguerite Oswald testified as follows: 15 before the Commission and made reference to a photograph that 16 she had seen that purported to show Jack Ruby. 17

The photograph she was referring to was one of the Odum individuals who appears in the picture we just told you, Exhibit No. 1. That, at least in the record, is the first time that the Warren Commission was told about this particular photograph.

Is that consistent with your recollection? 73 Mr. Helms. How did Marguerite Oswald find out about the 24 photograph? Had she been shown the photograph? 25

Mr. Helms. By the FBI?

Mr. Goldsmith. Yes.

Mr. Helms. Begging your pardon, what was the question? Mr. Goldsmith. The question is, according to the record, the first time the Warren Commission was told about this photograph in mid-February of 1964, at that time, the person who informed the Commission about the photograph was Marguerite Oswald, not the Agency.

Mr. Helms. I have no idea why the Agency had not raised the question of the photograph. The only supposition I can make, not knowing who it was, they did not know what to do about it, and they did not know its relevance or its significance.

Mr. Preyer. Excuse me. We have another vote on. The Committee will recess for ten minutes.

(A brief recess was taken.)

Mr. Preyer. The Committee will resume its sitting.
Mr. Goldsmith. Mr. Ambassador, do you recall whether the
Warren Commission was dissatisfied with the explanation that
had been given to it concerning the photograph of the individual
in Mexico City that initially was linked to Oswald? *Mr. Preyer.* I do not know, Mr. Goldsmith. That would be

a very difficult question for me to answer. I do not recall

this photograph created any controversy between the Commission and the Agency?

Mr. Helms. I am sorry. It does not.

Mr. Goldsmith. Is there any reason why the Commission would not have been told about this photograph as early as December when it was initially formed?

Mr. Helms. I do not have any idea why. It was later than that. The photograph was brought to the Commission's attention. I have no recollection of this whatsoever. My recollection is confined almost entirely to the efforts made at some point. I do not even know exactly what period this was to try to find out who the man was.

Mr. Goldsmith. At this point, would you please refer to CIA 2139.

Mr. Craig. Is that also Volume 3?

Mr. Goldsmith. Yes.

Mr. Goldsmith. For the record, that is an internal note

Mr. Goldsmith. Do you recall ever receiving this memo? Mr. Helms. No, I do not.

Mr. Goldsmith. Drawing your attention to the second paragraph of the memo, does it make reference to the famous six photographs that were not of Oswald?

Mr. Helms. It does. It says, for example, the famous six photographs that were not of Oswald. I did not realize there were six photographs.

Mr. Goldsmith. For the record, I should indicate they eventually located as many as twelve photographs of this individual.

Drawing your attention to the second paragraph, why was there a preference on the part of at least some of your staff to wait out the Warren Commission with respect to, among other things, these photographs?

Mr. Helms. I do not know. I assume it has to do with the way they were taken. Is that not a reasonable inference, that it was a question about wanting to put on the public record the fact that we were photographing people going in and out of these embassies.

Mr. Goldsmith. The issue here is not putting anything in

Mr. Helms. I do not know if it was something else. I do not have any idea what it is any longer, but I assume you have had an opportunity to speak to Mr. Rocca or Mr. Angleton or somebody. Maybe they have a better recollection than I. I do not recall if I got this memorandum what I did about it.

Mr. Goldsmith. If this case involving the photograph an example of a situation where the Agency's concern for protecting sources and methods under the law prevented it from giving the Warren Commission all of the information that the Commission was asking for?

Mr. Helms. It may be they were not getting it promptly in the form in which they wanted it. It seems to me that the entire thrust of this memorandum was that they were getting the information, in any event, in some form or another, by some means or other.

Mr. Goldsmith. The Oswald contact with the Soviet Embassy turning to another issue not dealing with this document, that contact was reported to Headquarters by cable, I believe the cable recited earlier. Why would a cable be used to report this contact as opposed to some other way of communicating the information?

Mr. Helms. I think that since this was an American, since they thought it was an American who had gone to a Soviet

1-61

Embassy, that they would report it by cable. That was a reasonably routine way of doing it.

Mr. Goldsmith. Does that suggest that the contact at the time you would consider to be important?

Mr. Helms. It does not suggest to me anything like that. The pouch usually took a long time. They would have thought since this was an American they ought to report on it promptly.

Mr. Goldsmith. At the time of Oswald's contact with the Soviet Embassy, was any importance attached to that contact?

Mr. Helms. Not that I am aware of. I would have thought that the evidence would have indicated to the contrary. The FBI apparently paid no attention to the report.

Mr. Goldsmith. At this time, I would ask you to refer to CIA No. 179 that appears in Volume 1; for the record, that is a cable dated 10-10-63 consisting of Headquarters' response to the earlier Mexico City station cable.

I would ask you to read through CIA 179 to 181.

it would have escalated it quite considerably.

Mr. Goldsmith. Would some sort of response have been expected on the part of the Mexico City station, had they additional information on Oswald?

Mr. Helms. Yes. I would have thought that the Chief of the Mexico City Station, having received this telegram, if he did get additional information on Oswald he would desire to pass it very quickly back to Headquarters.

Mr. Goldsmith. For example, if the Mexico City Station had information in its possession and that information had already been processed to the effect that Oswald had also contacted the Cuban Embassy, should that have been communicated to Headquarters?

Mr. Helms. I would have thought so. I do not know whether it was or not, but I would have thought it should have been.

Mr. Goldsmith. The first paragraph of this cable contains a correct description of Oswald, at least a description that is more accurate than the one that is contained in the Mexico City Station cable.

Upon receiving this description, did the Mexico City station ever respond with respect to the discrepancy in the two descriptions?

Mr. Helms. I do not know.

Mr. Goldsmith. This cable also refers to Oswald as Lee

1-63

Henry Oswald. I believe earlier you made reference to the fact that there had been some confusion over the middle name. Do you know how the name Lee Henry Oswald got into the Agency's records instead of Lee Harvey Oswald?

Mr. Goldsmith. Was that ever a source of concern to your Mr. Helms. I believe there was an effort to ascertain what had caused the mistake, but I do not know whether any satisfactory explanation was ever found.

Mr. Goldsmith. Do you know whether any report was written reflecting that effort?

Mr. Helms. I would have assumed that someone would have written up the work they had done in an effort to clear up the discrepancy, but I do not recall the report, and I cannot say from firsthand knowledge that one existed.

I would have assumed that form would have required the writing of such a report.

Mr. Goldsmith. Referring to CIA No. 181, the lower lefthand corner of the page, it indicates that Thomas Karamessinas was the releasing officer of this cable.

Mr. Helms. Yes.

Mr. Goldsmith. Why would someone as high up in the Agency as Mr. Karamessinas have been the releasing officer for a cable like this?

Mr. Helms. I do not think -- if I may suggest it, with

due deference, that is not really the way I would have described what was happening here.

Mr. Helms. Yes, I have read it.

Mr. Goldsmith. Mr. Ambassador, this cable in particular has sparked some controversy because it also contains an indirect description of Oswald. The question I have for you is why, especially in light of the earlier cable which you just examined which contained a correct description, this incorrect description went out in this particular cable.

Mr. Helms. I do not have a clue, Mr. Goldstein.

Mr. Goldsmith. Was that issue ever raised by the Warren Commission?

Mr. Helms. I have no recollection any longer. I assume it must have been raised. I would assume this would have been gone over and picked at and repicked at and every effort made to find out what had happened and what had gone wrong. But that is 15 years ago and I do not have any recollection of the chain of events.

Mr. Goldsmith. Was the Warren Commission ever shown these
specific cables?

Mr. Helms. I do not know. I would have thought they
might have been shown this dissemination. I do not think
there would have been any reluctance to show them that.

Mr. Goldsmith. Did the CIA's Mexico City Station ever obtain a tape-recording of Oswald's voice?

AND SALAN SALAN

Mr. Helms. I am sorry, I cannot help you.

May I ask, not out of curiosity, but simply by way of attempting to be helpful, is it possible that what Mr. Hoover is referring to, that some FBI agent assigned to the Embassy, the American Embassy in Mexico City, might have been who listened to this tape recording?

The FBI had a large station in Mexico City. I just thought that might be what he is referring to.

9 Mr. Goldsmith. Do you recall whether the question of the 10 existence of Oswald's tapes was important in 1963?

For example, I raised this with you because the question 11 12 has arisen as to whether the person who showed up at the Embassies in Mexico City was not Oswald. If you had a tape 13 recording of his voice, that could obviously be tested to corroborate whether that was Oswald. 15

Do you recall whether this was an issue in 1963?

Mr. Helms. If it was, I do not know how it was handled. 17 I do not recall it as an issue. 18

As I say here today, I do not ever recall anybody ever 19 having said to me that it was not Lee Harvey Oswald who called 20 21 the Embassy.

Mr. Goldsmith. Did the CIA's Mexico City Station ever 22 obtain a photograph of Oswald as a result of its photo surveil 73 lance operation against the Soviet and Cuban Embassies and 24 25 consulates?

surveillance, photographically?

That was certainly the object of the exercise. Mr. Helms. Mr. Goldsmith. If the record -- by the record, I refer to the Agency's record of Oswald's contacts with the embassies, and also the Warren Commission's contacts with the embassies, established that Oswald visited the Cuban and Russian enbassies and consulates at least five times, possibly more than six.

Would you regard it as unusual for the surveillance station not to obtain a photograph of Oswald?

Mr. Helms. Yes, I thought it was unusual if he has 10 been there five or six times.

Mr. Goldsmith. In fact, there were, in the record, no 12 photographs of Oswald that was obtained.

Was the Mexico City Station ever questioned as to why 14 no photograph of Oswald had been obtained? 15

I do not know firsthand if they were questioned, 16 Mr. Helms. but I would assume they were questioned in spades. I would 17 assume everyone would want to know why. 13

Mr. Goldsmith. Were you specifically involved?

Mr. Helms. I do not remember any more.

can do to improve that kind of thing. Either the thing works or it does not work. But there is very little point in trying to follow a line of inquiry that is critical of the way the Agency conducted those operations, because they were done under S the most difficult circumstances, not under laboratory circumstances. Therefore, if they worked or did not work, it was a great deal of matter of luck, often, than good technical work or good judgment.

9 Mr. Goldsmith. That line of inquiry is not directed specifically at any criticism of the Agency. The mode of 10 11 analysis goes to style.

Oswald makes five or six visits to the Embassy. We have 12 a situation where the record suggests that there was an attempt 13 to have continuous photographic coverage. Even if the photo-14 graphic coverage was not 100 percent effective, one would think 15 if he visited five or six times he would be picked up at 16 least once. 17

From that, the next step would be, if there was a picture, 13 why was it not made available? And that is specifically the 19 issue with which the Committee is concerned. 20

I can understand the Committee's concern, and Mr. Helms. 21 I wish it luck solving the problem. 22

Mr. Goldsmith. Turning to this particular document, 1879 13 is your memory now refreshed about a Cuban defector offering 24 information to the Adency concerning Oswald, concerning the 25

Mr. Goldsmith. Yes.

Mr. Helms. I had forgotten about this defector report or, if I knew about it, I imagine it was brought to my attention at the time, certainly, I do not recall anymore.

Mr. Goldsmith. Turning to the middle of the page, the part of the paragraph labelled as "Comment," would you tell the Committee what the term WH/SA/CI?

Mr. Helms. SA, I am not sure anymore what that would have been. I do not know if that was Special Activities or just what. I am sorry. Wait a minute.

No, I cannot help you.

Mr. Goldsmith. Do you know whether SA referred to the Cuban Task Force?

Mr. Helms. If it referred to the Cuban Task Force, I would have thought it would have been SAS. I thought that what was normally referred to, the Special Activities Staff, and it was therefore referred to, or would have been referred to, as WH/SAS/CI, if that is what it was.

Maybe this is correct. I do not want to say you are not correct. Obviously, you know a great deal more about this these days than I do.

Mr. Helms. No.

Mr. Goldsmith. Do you recall what information he provided concerning Oswald's contacts with DGI?

7 Mr. Helms. I do not. I just know what I have read on 8 the sheet.

9 Mr. Goldsmith. The first paragraph of the sheet indicates
10 that Oswald visited the Cuban Embassy on two or three occa11 sions. Then it says, before, during and after these visits,
12 Oswald was in contact with DGI, Cuban intelligence.

What follow-up, if any, do you recall being done with this particular issue?

Mr. Helms. I am sorry. I do not understand.

Mr. Goldsmith. Having received this information, what was done with it?

Mr. Helms. I do not know. I do not know what could have been done with it. So he was in touch with Cuban Intelligence. What would we do about that.

Mr. Goldsmith. Was the Warren Commission told about it?
Mr. Helms. I do not know. I would have thought they

incident, would not have specifically asked you about it. So this would be an example of the CIA's initiating information to the Warren Commission.

Mr. Helms. It seems to me, having interrogated a defector and developed information on Lee Harvey Oswald and his contacts with the Cubans, that the Agency would have volunteered this information to the Warren Commission if, indeed, the Warren Commission was still sitting on 5 May 1964, which I assume that it was.

Mr. Goldsmith. At this time, would you please read CIA No. 1906, which is a memo dated 12 May 1964, directed to Mr. Rocca from Mr. Angleton.

case from the time that contact was made with him in Geneva through his defection and then through the period after he defected and was held by the Agency and I was probably in and out of the case -- and by in and out, I simply mean that at periodicaintervals I would hear some aspects of the case, or about the case -- until the time that he was eventually resettled.

In other words, by "resettled," I simply mean he was led out of the Agency's custody, found a place to live. I thought he was given a new identity and assumed a life in American society in the public domain. But I was in and out of it all the time. How many decisions I was involved in during this period I do not recall anymore.

I do not want to duck any of them. It was an ongoing case of great sensitivity, great legal complications, and that is the best way I can answer your question.

Mr. Goldsmith. I take it that, as DDP and then DCI, you were involved in the decision-making process concerning Nosenko 18

> Mr. Helms. That is right.

Mr. Goldsmith. Have you read the three major agency reports that were written in regard to the Nosenko case? Specifically, there was a report in 1968 issued by the Soviet 22 Russia Division; another report later in '68 called the Soley Report; another, a third report, in 1976 referred to as the Hart Report.

Mr. Helms. I would have thought -- I see what you mean. Excuse me. I do not think I understood your question properly. Let mē go back.

I have no reason to question the fact that he was in CIA custody until 1969. I was referring to the fact that he was under interrogation for, I think, two or three years and then he was in the Agency's custody under different surroundings and under different circumstances I believe.

Mr. Goldsmith. Fine. We understand each other.

What unit within the CIA had the primary responsibility for handling Nosenko in 1964?

Mr. Helms. My recollection was that he was turned over to the Director of Security as far as his handling and housing and so forth was concerned; that his interrogation was handled by people provided by the Soviet Russian Division, or whatever the division was known as at that time.

The title of that division, Mr. Chairman, changed through the years, and I am not sure what it was called in 1964. Anyway, it was the division that was attempting to run operations against the Soviet Union.

Mr. Goldsmith. Are you saying initially the responsibility for questioning Mr. Nosenko was given to personnel from the Soviet Russia Division?

25

Mr. Helms. The interrogating responsibility, yes.

Mr. Goldsmith. Did they continue to have responsibility 2 for him until he was released from CIA custody in 1969? 3 Custody in the sense that you referred to earlier? Mr. Helms. We switched terminology here. 4 The Soviet 5 Russian fellow were the interrogators. The housekeepers, administrators and handlers I believe, if I am not mistaken, 6 came from the Director of Security. I believe that they con-7 tinued this on through during the time that he was in Agency 8 Ģ custody. 10 Am I wrong about that? Mr. Goldsmith. I am afraid I cannot respond to you at this 11 time concerning that. You are certainly correct in terms of 12 personnel who handled him with regard to interrogation. 13 Mr. Helms. All right. Let me just rest on what I have 14 said. 15 Mr. Goldsmith. So initially, the personnel that handled 16 the interrogations came from the SR Branch or Division. Did 17 they continue to have this responsibility until Mr. Nosenko 13 was released from custody in 1969? 19 Mr. Helms. I thought the interrogation period was sort 20 of over when he was turned over to Bruce Soley and Soley 21 was the fellow who was supposed to take care of him and talk 22 to him and so forth. 73 My recollection may be wrong. It may be fuzzy. I thought 24 that there was a change there. 25

Mr. Goldsmith. Why was responsibility for handling Nosenko in terms of questioning him transferred from the SR people to Bruce Soley?

Mr. Helms. My recollection of the circumstances was I had a problem as Director and it was a serious problem -that was what to do with Mr. Nosenko. After all, we held him against the laws of the United States for a period of two or three years. Even though we had consulted with the Deputy Attorney General as to what to do about the case we got no particular help from him because there was no legal precedent for these things.

In fact, as far as I know today, there has been no effort made to set up a legal context in which a case like this could be held.

I was not interested in continuing this any longer than it was felt necessary to get as best we could to the bottom of the Nosenko case.

So after considering all the factors, the decision was made to get him out of what I can only refer to as Durence file and get him into different circumstances and make an effort not only to resettle him, but find out whether pleasant and cordial treatment he had any different things to say than

he had under hostile interrogation.

I want to emphasize the point. I am not trying to anticipate your questions, Mr. Goldsmith; it just seems to run right along here -- that my motivation as Director of the Agency was to get that man into a status where he could handle it in some way that was proper and legal and all of the rest of it and get him out of a status where we were obviously in violation of the law in holding him.

Mr. Goldsmith. Do you recall how long a period Mr. Nosenko was held in custody or confinement under violation of the law?

Mr. Helms. I think it was two or three years anyway.

Mr. Goldsmith. Do you recall which individual specifically had primary responsibility for interrogating him in '64? To refresh your memory in part, would David Murphy have been one of those individuals?

Mr. Helms. That sounds good.

Mr. Goldsmith. Can you recall anyone else besides Mr. Murphy?

Mr. Helms. I do not recall whether I recall this name from my recollections as to 1964. It seems to me that Bagley was another fellow involved in the interrogation of Nosenko. Mr. Goldsmith. I am sorry, Mr. Helms. I do not comprehend fully your response. Another individual may have been involved in the interrogation?

Mr. Helms. I think at that time he was in the SR Division somewhere.

Mr. Goldsmith. How were these individuals selected for handling, Mr. Nosenko? Why, in particular, were these individuals chosen?

Mr. Helms. I do not know. I would have thought that the Chief of the SR Division would pick individuals who knew the most about Soviet intelligence, Soviet intelligence methodology, how things were done in the Soviet Union. In other words, would have provided the most expert interrogators we could have.

Mr. Goldsmith. How much expertise, if any, did the individuals have to the Oswald case?

Mr. Helms. I do not know.

Mr. Goldsmith. When Nosenko was questioned about Oswald, was any effort made to have the interrogator have sufficient expertise concerning Oswald and the JFK assassination?

I do not know. I cannot imagine he would Mr. Helms. not have briefed himself on these things. In other words, what would be the purpose on the part of the interrogation? What we were trying to do was find out whether Nosenko was telling the truth or not. This would have been an important part of finding that out.

Mr. Goldsmith. Would you also think that the individuals involved with the questioning of Nosenko were, in fact, experienced interrogators?

Mr. Helms. Well, I do not know what experienced interrogators are, really. In the American vernacular, a man who has been doing anything for two weeks has become experienced, so I do not know how you evaluate that term.

But people like Murphy and Bagley and so forth were certainly experienced in Soviet Russian matters. Whether they were experienced interrogators or not, I do not remember. The word interrogator is something from World War II. If you were 17 an interrogator in a prisoner of war camp, you kind of got that 18 rubric hung around your neck and that gave you a certain status! 19 I have never quite understood why, but nevertheless it did. 20

Whether these fellows ever had that kind of interrogation 21 instruction or experience, I do not remember. . 22

In light of that, would it be expected Mr. Goldsmith. that the people qustioning him would have had a lot of experience?

Mr. Helms. I would have thought the agency would have put the best people in it that they could find. Certainly that was my intention.

Mr. Goldsmith. Who made decisions concerning which areas of inquiry were going to be addressed to Nosenko?

I think there was a great deal of cooperation ----Mr. Helms. done within the DDP trying to work out the interrogation of It was so important to us and we had him for so long-Nosenko. I am certain there there was a lot of consultation and effort made to figure out ways to arrive at the truth here.

Mr. Goldsmith. Other than the SR branch, which units would 11 have been involved? 15

Mr. Helms. I do not know who was involved. That is all on the record. I think it is fine to ask me these things, but fifteen years later I do not remember a whole list of names.

Mr. Goldsmith. Part of the Committee's problem is that the record is not all that clear and does contain errors.

The record contains errors? How does the record Mr. Helms. contain errors? I am not clear. 22

Mr. Goldsmith. I am talking in a general sense. Part of the problem that the Committee faces is the record, in fact, does not speak for itself and that records do contain errors.

Mr. Helms. I.I. do not have any recollection whatever. Mr. Goldsmith. Do youcever recall being briefed? I am sure I was asking from time to Mr. Helms. Yes. time as to how we were finding out. After all, I felt I had to go see Chief Justice Warren and tell him that we were not able to establish Nosenko's bona fides. I obviously satisfied myself before I went that we were not able to.

Mr. Goldsmith. Did questions concerning Oswald constitute 13 a major facet of the overall inquiry that was being made of 14 Nosenko? 15

> Yes. No question about it. Mr. Helms.

Mr. Goldsmith. In January, 1968 when the SR Division Report concerning Nosenko was issued, what was the Agency's 13 position concerning Nosenko's bona fides? 19

Mr. Helms. I do not think the Agency has ever had a position. The only position I know of that could be called an Agency position was we did not know whether he is bona fide I never made a determination as to whether he was or not. bona fide or not. But I believe unless something has happened that I never heard of, that it still must be an open question.

Or, let us put it this way, a matter of opinion.

Mr. Goldsmith. Is it not so that the SR Report of 1968 indicated that in fact Mr. Nosenko was not a bona fide defector?

Mr. Helms. I do not remember firsthand what the thrust of the report was, but obviously this is a very difficult line of inquiry for me because I read the magazines and newspapers and books and so forth which have appeared since, and I do not know what I have read there and what I knew from that time.

I just judge from reading the New York magazine, for example, that this is still an open question. If the New York magazine is a bad source, I have nothing to add.

Mr. Goldsmith. In January, '68, when the --

Mr. Sawyer. If counsel would yield for just a moment, may I ask the Ambassador, this is kind of intriguing to me, we having had a rather long session with Mr. Nosenko. Do you have an opinion yourself on that question?

Mr. Helms. No, sir, I do not, because a lot of time has passed since I have been out of the Agency and a lot of the factors that went into this argument and debate, I have now forgotten about.

I have been under constant appearances in Grand Juries, Congressional Committees and various investigations on all kinds of subjects, so my memory is even more wonky than it would be under normal conditions.

I do not know about Mr. Nosenko. I do know that there

are differing opinions, however, about him, but I do not have any personal feeling myself about him.

I am sorry, I cannot help you. I do not know.

Mrs. Burke. Since Mr. Sawyer has interjected a question at this time, I have a couple of questions I would like to raise at this point.

There were many defectors from the Soviet Union and Cuba during that period of time. What was the usual procedure for the housing of those defectors and what was the procedure in terms of their places of detention?

Mr.Helms. Usually, Mrs. Burke, when these men were brought to the United States they are put in what is called a safe house which was usually a relatively isolated residence where we could control the environment around it, and they were lodged there -- normally very comfortably and well-fed and well-taken care of and interrogated. And the normal procedures did not take terribly long, maybe a month or two or something of this kind, and then they would be resettled, a new identity would be given to them, or something would occur. 19

But the Nosenko case was so central to the whole problem of trying to establish this relationship of the Soviet Union to the assassination of President Kennedy, and since we were unable to resolve the case satisfactorily to ourselves, this went on far longer than any other case I have ever remembered. And I must say also, because I do not want to mislead you

in any way, that whether or not the handling of defectors, the way it was done in those days, was in compliance with all the laws of the United States, I do not know. All I know was inside the Executive Branch there was an Inter-Agency Committee on which the FBI and the Army, Navy and State Department and all these agencies sat, and they were the ones who decided what was going to happen to these defectors.

I believe -- I am no lawyer, as I said, but I believe that there is kind of a grey area in our laws as to exactly what their rights are when they defect because they do sign papers saying that they want asylum and all the rest of it, so they do, in a sense, give up certain rights by making this request.

Mrs. Burke. Were not some of the defectors tried in the civilian courts?

Mr. Helms. I do not know any case of that. Mrs. Burke. Not Soviet defectors? It has to be in time

Mr. Helms. I think that is right.

Mrs. Burke. May I inquire about how much longer does counsel intend to go?

22 Mr. Goldsmith. This might be an appropriate time for the 3 luncheon break.

Mrs. Burke. All right.

Mr. Preyer had to leave. If there is no objection, his

suggestion was that we recess until 1:30. Mr. Helms. I am at the Committee's disposal. I will be back anytime you tell me. Mrs. Burke. Is that convenient for everybody else? Is there any particular reason why 1:30 would be inconvenient for you? Mr. Helms. Not for me. Mrs. Burke. If there is no objection, then the Committee will stand in recess until 1:30. (Whereupon, at 12:30 p.m., the Subcommittee recessed, to reconvene at 1:30 p.m. this same day.)

TESTIMONY OF RICHARD MC GARRAH HELMS -- Resumed 1 Mr. Goldsmith. Mr. Ambassador, the Committee will proceed 2 at this point and I take it, based upon our discussion a few 3 moments ago, you are willing to proceed this afternoon without 4 a quorum? 5 Mr. Helms. Certainly. 6 Mr. Goldsmith. Thank you. 7 When we broke for lunch, you were into the area of Nosenkb 8 and specifically I want to ask you whether or not in January 9 of '68 when the SR Division Report concerning Nosenko was 10 issued, I asked you what the Agency's position regarding 11 Nosenko's bona fides was. 12 I believe that your answer was that the Agency, in fact, 13 had no position. Is that correct? 14 That is correct, Mr. Goldsmith. I do not Mr. Helms. 15 recall there having been any necessity at that time for having 16 to establish an agency position. 17 As the Director, my pre-occupation, as I mentioned earliet 13 was to attempt to regularize Nosenko in such a fashion that 19 he could assume some kind of a life on the American scene. 20 And I was most anxious, particularly, to change his method of 21 living which, for a protracted period, as I said this morning, 22 he was being held without the blessing of a court and I was 13 entrusted to get him regularized in such a fashion that we 24 could, in effect, over time, get rid of our responsibility for 25

housing him, feeding him and handling him.

In other words, what was known in the intelligence community as getting him ready to be resettled.

Mr. Goldsmith. The SR Division Report, which initially was issued, was approximately 900 pages in length. That report did make a statement regarding Nosenko's bona fides, did it not?

Mr. Helms. I do not know if that were the 900 page report. I do recall that I did not read all of that. I was just told what the general thrust of it was.

I believe that there was a disagreement between the SR
Division and the CI Staff over Nosenko's bona fides. It did
not seem to me at the time that it was essential that that
had to be 100 percent composed.

My problem was, as I say, was to get him resettled.
I believe there was a disagreement. I would not be
surprised -- I do not know for a fact, but I would not be
surprised -- if that disagreement exists to this day.

Mr. Goldsmith. At that time, the CI staff had not issued any type of a formal report?

21 Mr. Helms. No, but they had mouths, and they could tell 22 the Director what they thought about the case.

Mr. Goldsmith. In January of '68 --

Mr. Helms. I am not even sure -- excuse me for just a second -- as to exactly at that time, in 1968, because I do not

want to mislead the Committee or you, I do not know whether SR and CI saw this eye to eye and the Security Division felt differently, or just who took excactly what position. I am not that clear in my mind anymore.

I just know that there were disagreements inside the Agency itself.

Mr. Goldsmith. What was the Agency's position in January 1968 with regard to the veracity of the information Nosenko had provided concerning Oswald?

Mr. Helms. I believe that really this was a matter that
was at fundamental issue because if the information that
Nosenko had provided about Oswald was true, then it led to a
certain conclusion about Oswald and his relationship to the
Soviet authorities.

If it was incorrect, if he was feeding this to the United States government under instructions from the Soviet service, then it would have led one to an entirely different conclusion about Oswald's role and the Soviet identification with it.

It rather strikes me that, as far as I know, to this day it has never been satisfactorily resolved. What did Lee Harvey Oswald represent as far as the Russians were concerned? I promise you that I do not know.

Mr. Goldsmith. In your view of the analysis, then, is the veracity of what Nosenko told the Agency about Oswald a critical factor in evaluating his overall credibility, his

overall bona fides?

Mr. Helms. It is not only that, Mr. Goldsmith, but the fact remains that the issue of why Oswald assassinated President Kennedy has not been resolved for the satisfaction of a lot of citizens of this country. I assume that that is one of the reasons that you are having these hearings. If one could accept at face value what exactly Nosenko has said, it would lead you to one interpretation. If you cannot accept it, it may lead you to another interpretation. I do not know how you are going to compose the difference. Mr. Goldsmith. I understand that. My question, though, is, from the Agency's perspective, was the information that Nosenko provided concerning Oswald a major factor in determining the larger issue in determining the larger issue of whether Nosenko was a bona fide defector? Mr. Helms. It obviously played a role in it. Mr. Goldsmith. A major role? Mr. Helms. I do not know whether you could say it was a major role or not, but it was certainly an important role, let's put it that way. Mr. Goldsmith. I might state at this point in the record earlier you had asked me whether I knew how Nosenko was handled in terms of the distribution between the Office of Security and the SR Division. I wanted to clarify that. In fact, according to the Committee's sources, Mr. Nosenko

10.14.8

was handled by the SR Division at the time they had the 1 responsibility of questioning him and dealing with him on an 2 everyday level. The Security Office personnel were in charge 3 of overseeing him essentially watching for Security and making. 4 5 sure he did not go where he was supposed to go. Congressman Sawyer asked you this morning about whether 6 you have any opinion about the bona fides of Nosenko. 7 Are you able to give any more specific response to the Committee 8 9 at this time concerning that issue? Mr. Helms. No, I am sorry, Mr. Goldsmith, I am not. 10 I realize that this is a terribly important question and, 11 recognizing its importance, I am not attempting to duck or to 12 show a lack of forthrightness. I just do not know the answer 13 to the question. 14 Mr. Goldsmith. You have no opinion on it? 15 No, I do not have an opinion. Mr. Helms. 16 Mr. Goldsmith. After the SR Division issued its report 17 in 1968, was the Nosenko case reinvestigated by Bruce Soley? 13 Mr. Helms. My recollection was that Bruce Soley, whether 19 he did an investigation or whether he engaged in long dialogues 20 with Nosenko or just what, but I believe, at some point, Soley 21 came up with his opinions about Nosenko. 22 Mr. Goldsmith. Is it not also true that late in 1967 13 Soley was actually given responsibility for handling Nosenko?

Mr. Helms. I do not remember the date unfortunately.

1 will have to tell me what those dates were. All I know is 2 that there was a transition between the time that he was being Soley entered the picture. He was put held in one situation. 3 into different housing arrangements and so forth. 4 I do not 5 know the exact date of that change. Mr. Goldsmith. Fine. We will put aside for the moment ó the question of the date, but at one point soley took over 7 the everyday handling of Nosenko -- Soley was in and the SR 8 people were out. Is that correct? 9 10 Mr. Helms. I think by that time the SR people had had their opportunities to talk to Nosenko. This had been going 11 on for months. 12 I believe at that time that Soley -- the job was given 13 to Soley to handle this man, and to try to find some means of 14 resettling him. 15 Mr. Goldsmith. The SR people did not have any further 16 responsibility? 17 Mr. Helms. I think they had access if they wanted to, but 13 I do not think there was any responsibility they had. 19 Mr. Goldsmith. Do you know whether Soley had any particu-20 lar expertise in regards to the Oswald case? 21 Mr. Helms. No, I do not think so. 22 Mr. Goldsmith. Was Soley considered to be an expert in 23 interrogations? 24 I think that he was Mr. Helms. No, I do not think he was. 25

Mr. Goldsmith. To whom, if anyone, was soley directly responsible during this period?

Mr. Helms. I think he was responsible to the Director of Security and, in turn, the Director of Security would have been responsible to me.

Mr. Goldsmith. Do you know whether, again, the 1968 investigation conducted by Soley, whether Nosenko was questioned about Oswald?

Mr. Helms. I do not specifically, no.

Mr. Goldsmith. Would it have been acceptable in 1968 if Sofey had been unable to resolve the question of Nosenko's bona fides?

Let me rephrase that. If he had been unable to come forward with a viewpoint concerning Nosenko's bona fides.

Mr. Helms. What was your question?

Mr. Goldsmith. Would it have been acceptable to the Agency if Soley had been unable to come forward with a position one way or the other concerning Nosenko's bona fides? Mr. Helms. I do not think by that time there was any

feeling that there was going to be suddenly a ray of truth come through and we were going to be able to resolve the case

of Nosenko. The problem in those days was to deal with this man. The effort was to accomplish that, and soley was given that job.

Whatever Soley had come up with, if he were reasonably successful in keeping the fellow contented, getting him squared away, getting his English straightned out and all the rest of these things, I would have thought he was doing a good job.

Mr. Goldsmith. In light of what appeared to be the enormous consequences of the situation where Nosenko, in fact, were not a bona fide defector, the consequences of that as far as the American intelligence community was concerned, it would appear, were quite great.

Mr. Helms. For the intelligence community, it would have had no consequence, for the intelligence community. It would have had consequences for the country.

Mr. Goldsmith. Fine. We will take it step by step. Certainly the American intelligence community would have been concerned. The entire issue of Nosenko's being a planted defector, possibly, planted for the purpose of protecting other Soviet agencies working within the American intelligence community.

Mr. Helms. That is what I was trying to warn the Warren Commission against, that possibility, that contingency, and the implications of it.

Mr. Goldsmith. In light of the consequence of such a

contingency, it would appear that the Agency would very much 1 want to resolve the issue of Nosenko's bona fides and would 2 not be satisfied with the situation where you are in limbo. 3 Mr. Helms. Mr. Goldsmith, may I ask you a question? 4 How would you suggest that that be done? 5 Mr. Goldsmith. My question is, is it not true that the 6 Agency would feel compelled to try to resolve that issue? 7 Mr. Helms. We did the best we could. 8 Mr. Goldsmith. Yes. By 1968, you are saying the Agency 9 did not have a position one way or the other. 10 Mr. Helms. That is right. 11 Mr. Goldsmith. What about at the conclusion of Soley's 12 work when he issued his report? At that time, did the Agency 13 have a position with regard to Nosenko's bona fides? 11 Mr. Helms. I do not believe so. At least during my time 15 there, I do not recall us ever taking a position as an Agency. 16 Mr. Goldsmith. Has the Agency ever taken a formal posi-17 tion regarding the truthfulness of Nosenko's story on Oswald's 18 contacts or lack of contacts with the KGB? 19 Mr. Helms. That is the heart of the issue. That is why 20 I believe on that particular question, the question has never 21 been resolved, never been satisfactorily answered. 22 Mr. Goldsmith. Let me ask you this. If it were clearly 23

proven that Nosenko's statements concerning Oswald were untrue

what significance could you attach to such a finding in so far

1-101

24

1 as the broader question of his overall bona fides is concerned? 2 Mr. Helms. I think that, if it were established beyond 3 any doubt that he had been lying and, by implication therefore, 4 Oswald was an agent of the KGB, I would have thought that the 5 implications of that -- not for the CIA or for the FBI, but 6 for the President of the United States and the Congress of the 7 United States would have been cataclysmic. 8 Mr. Goldsmith. Could you be more specific? 9 Mr. Helms. Yes, I can be specific. In other words, 10 the Soviet government ordered President Kennedy assassinated. 11 Mr. Goldsmith. Does it necessarily follow that Nosenko 12 was lying about Oswald, and that Oswald was, in fact, an agent 13 of the KGB? 14 Mr. Helms. It does not necessarily follow. We can do all kinds of syllogisms here. 15 The issue before the House is, was he or was he not an 16 employee of the KGB? It is on that that this whole thing tends 17 to turn. 18 Mr. Goldsmith. The initial issue here is the truthfulness 19 of Nosenko's statements about Oswald and essentially those 20 that the statements are KGB had no contact with Oswald. 21 If it were clearly proven that Nosenko's statement on 22 Oswald were untrue -- proven in the sense that it could not be 23 believed that Oswald did not have contacts with the KGB, but 24 not proven in the sense that Oswald was, in fact, a KGB agent, 25

Mr. Helms. Well, if the man had been demonstrated to have lied, it would have had a good deal of an effect on the establishment of his bona fides, I would think. . What was his motive for lying? Why did he lie?

Mr. Goldsmith. Would you take the analysis so far as to say if Nosenko was lying about Oswald, if it were clearly proven that he were lying about Oswald, that in fact he was not a bona fide defector?

Mr. Helms. That is one of the problems exactly; you put it very well.

Mr. Goldsmith. Is your answer to my question yes?

Mr. Helms. Yes.

Mr. Preyer. If I may ask one question on that score, of key concern, of course, to the intelligence agency, was the broad question of whether Nosenio was a bona fide defector or a disinformation agent.

Is it not conceivable that he might have been a bona fide agent and been basically telling the truth about that, and this other information concerning other security matters would be accurate? Then, on Oswald, maybe to ingratiate himself, perhaps, or to convince the intelligence agencies that he was more

That would still not necessarily determine whether he was the bona fides or not?

Mr. Helms. I think that any of these explanations or possible or conceivable or may even be the accurate one. But let us not overlook, Mr. Chairman, the fact that if I were down here trying to defend that thesis in front of you, I think I would have a pretty rough time.

Mr. Preyer. Yes. I think you put it very well. Why
would you lie?

As you have made very clear, this might be a question on his bona fides that we do not know how to resolve right now and may never resolve unless there is a flash of truth from some area.

Excuse me, Mr. Goldstein.

Mr. Goldsmith. The question that arises, Mr. Ambassador,
in light of your statement that the Agency did not have a
position regarding Nosenko's bona fides in 1968 is why, in light
of the absence of any position one way or another, the Agency
never the less paid Mr. Nosenko approximately \$80,000 after
taxes in 1968 and then put him on its payroll as a consultant.
Mr. Helms. These figures are yours, sir. I do not

as a consultant. I thought that any monies that were paid to him were in an effort to sweeten him up a little bit and get him prepared to be resettled. I do not recall anybody's ever telling me that he had been hired as a consultant to the Agency.

Mr. Goldsmith. If, in fact, it were established by the record that Mr. Nosenko was made a consultant and is, in fact, a consultant today, would that indicate that the Agency has apparently resolve the issue of his bona fides?

Mr. Helms. I do not know, sir. I did not know that he was considered a consultant at the time that I was Director. I do not recall ever signing off on any piece of paper that made him a consultant.

Mr. Goldsmith. In order to have made Mr. Nosenko a consultant, would you have had to sign off?

Mr. Helms. Not necessarily. I think I would have been informed that this fellow is now considered to be a consultant to the Agency and we are sending people down to talk to him. I never agreed to any such thing.

I do not care what the record shows.

Mr. Goldsmith. Do you know to what extent, if any, Nosenko's story concerning Oswald changed in 1968 from the one he had given previously when he was first confined? Mr. Helms. No. I do not remember those details at all: Mr. Goldsmith. Do you know whether an independent

Are you aware that Mr. Nosenko was given 5 polygraph tests in 1964, 1966 and 1968? 6 Mr. Helms. That does not surprise me. I would have 7 thought he should have been. 8 Mr. Goldsmith. Why would Mr. Nosenko have been given 9 three tests? 10 Mr. Helms. To find out if he was telling the truth. 11 Mr. Goldsmith. Are you aware that Mr. Nosenko failed 12 the first two tests and passed the third? 13 I did not remember those figures, no. Mr. Helms. 14 Mr. Goldsmith. Are you aware that Nosenko was given the final polygraph test, the one that he passed, approximately 15 one month prior to the issuance of the 1968 report issued 16 17 by Mr. Soley which concluded that he was a bona fide defector? 18 Mr. Helms. Maybe that was a part of what Soley was going on when he made that determination, the way he came through on 19 20 the polygraph test. 21 Mr. Goldsmith. It is also possible, however, that Mr. 22 Soley had completed his report, realized that Nosenko had 23 failed two polygraphs and decided that, prior to the issuance 24 of his report, another polygraph test would be administered.

Mr. Goldsmith. Do you know why Nosenko was asked numerous 8 questions about Oswald on the second test, the test that he 9 failed, and was asked only two questions about Oswald on the 10 final polygraph test? 11 Mr. Helms. No, I do not know. 12 Mr. Preyer. Mr. Goldsmith, I regret that there is another 13 vote on. We can recess for ten minutes. I will get back just 14 as fast as I can. 15 The Committee will recess for ten minutes. 16 (A brief recess was taken.) 17 Mr. Preyer. The Committee will resume its session. 13 Mr. Goldsmith. Mr. Ambassador, prior to taking this last 19 recess again, we were discussing, in general, the question 20 whether the Agency had a position concerning Nosenko's bona 21 fides. Perhaps you or I are defining the concept of position 22 very narrowly. By "position," I do not necessarily mean that 13 the Agency had, in writing, a specific position regarding, 24 specific posture regarding, Nosenko. By "position," I am saying 25

Mr. Helms. I am sorry. I do not know the answer to that question. When you say a prevailing opinion, I see what you are trying to get at. Obviously, I do not know what opinion prevailed.

Some people hued to one line, some to the other. It was my impression that he hued to it with equal fervor. And I do not know that this question has ever been satisfactorily resolved. As I say, I have been away from the AGency for five years and maybe some other things have happened in the interim. But at least as of the time I left, I do not think that the issue had ever been resolved between these conflicting forces.

May I say when I indicate that these views are strongly held, I mean it. It is like Catholics and Protestants; they simply are not to be swayed.

I think, in order to answer your question properly τ I 13 would have to say, since there was a division, it was not 19 possible to get a prevailing view, as such. Some people might 20 have said, well, I think this and I think that, without having 21 read the 900-page report, without having been thoroughly 22 conversant with the details. In other words there were not 13 many other people in a position to have a calculated, informed 24 opinion. 25

1-108

Mr. Goldsmith. Are you saying there was no prevailing opinion?

Mr. Helms. I do not think so. I do not know what the prevailing opinion would have been.

Mr. Goldsmith. At the time that the responsibility for handling Nosenko was initially given to the SR Branch or SR Division, did the SR Division enter into the situation as to a neutral party, or did the SR division pretty much think from the very beginning that Nosenko was not a bona fide defector?

Mr. Helms. I would have thought, at the beginning,
everybody would have entered into this with some objectivity
in an effort to establish the truth. As events unwound,
I think that this became clear to everyone involved that this
was a terribly important case.

Mr. Goldsmith. How early in this process did the SR
Division form its opinion that Nosenko was not a bona fide
defector?

Mr. Helms. I am sorry. I do not know.

Mr. Goldsmith. When Mr. Soley began his investigation, did he enter the situation as a neutral, outside party, or someone who represented one of the factions within the Agency concerning Nosenko's bona fides?

24 Mr. Helms. I really do not know the correct answer to 25 that. It was my impression -- and I can only give it as my

impression -- that he had agreed to take on this case, and I thought he came to it without any particular prejudice one way or the other, and that he was going to attempt to form his own opinion.

If other testimony on the record does not confirm that, I do not insist on what I say. I simply give you my impression

7 Mr. Goldsmith. Earlier, you made reference to Mr. Soley
8 having a positive viewpoint on Nosenko.

9 Mr. Helms. I think he developed a positive viewpoint. 10 It was my impression.

I do not know how early he had it. I think he had a positive viewpoing.

Mr. Goldsmith. How was Mr. Soley chosen for this particular assignment?

Mr. Helms. I do not remember anymore what details went into this. It seemed to me Howard Osborne, Director of Security, recommended that he be given charge of this case and to take it over because we were trying to find a way to resolve it, to resettle this man, and we were looking for a way to do this.

21 Mr. Goldsmith. Did the President ever ask you whether 22 this issue had been resolved?

Mr. Helms. Who?

Mr. Goldsmith. The President.

Mr. Helms. Which President?

The Agency, did the Agency ever receive 4 any pressure from above to resolve this issue? 5 Mr. Helms. Not that I recall. Mr. Goldsmith. What was the Warren Commission told about 6 7 Mr. Nosenko? Mr. Helms. Well, I do not know all the things that the 3 9 Commission was told about Mr. Nosenko. I know that the FBI told them certain things. I believe the Agency told them 10 things. I know that I, personally, met with Chief Justice 11 Warren privately in one of the conference rooms over in the 12 building where they had their Headquarters. I do not remember 13 the date of this meeting with him, but I know I cleared it 14 with Director McCone before I went down there. 15 I believe that it was not terribly long before the 16 Warren Commission was going to conclude its hearings because 17 my point that I felt had to be made to the Warren Commission 13

1-111

was that we had not been able to establish; to our satisfaction, the bona fides of Nosenko and that the Warren Commission must take this into consideration in compiling their report.

And the means chosen of my going to see Chief Justice 22 Warren seemed to be the proper way to do it under the circumstances so that he could make a determination as to whether 24 he wanted the matter handled differently or whether that was 25

Mr. Goldsmith. Was the Warren Commission told anything about the substance of Nosenko's story about Oswald?

Mr. Helms. I do not know. I do not know what details wound up in the hands of the Warren Commission about Oswald. Mr. Goldsmith. What other information, besides this issue of the bona fides, did you convey?

8 Mr. Helms. That is what I personally talked to the Chief 9 Justice about.

Mr. Goldsmith. When you met with Chief Justice Warren, for purpose of clarification now, did you tell him that the Agency had been unable to resolve the issue of Nosenko's bona fides, or did you tell him that the Agency did not think that Nosenko was bona fide?

Mr. Helms. I told him we were not able to resolve this, 15 my point being that, since we had not been able to resolve 16 it, that they should keep in mind the contingency that maybe 17 the statements that he had made about Oswald's having no 13 identification with the KGB were not accurate. Therefore, they 19 could not lean on them in the report and therefore they had 20 to face the implication that, if he was not bona fide and 21 come for the purpose of covering up the tracks of Soviet intel+ 22 ligence, that this had implications which should be weighed 13 in the scales. 24

Mr. Goldsmith. At the time that you met with the Chief

1-113 Justice, I take it, in some way, you must have been apprised of the basic Nosenko story concerning Oswald? 2 I believe that the basic Nosenko story con-3 Mr. Helms. cerning Oswald was given to the Warren Commission very early 4 in its deliberations by the FBI. S Mr. Goldsmith. What was Chief Justice Warren's response 6 to your analysis? 7 Mr. Helms. Well, he was obviously -- he was not pleased 8 to hear it, and by that I do not mean that he expostulated, 9 or anything of that kind, but he was not pleased to hear it 10 in terms of the difficulties that it made in completing their 11 report, but that he was perfectly fair and reasonable about 12 it and accepted what I had to say and said he would report 13 it to the Commission. 14 Mr. Goldsmith. Did Chief Justice Warren or any Warren 15 Commission member or staffer ever request to interview Mr. 16 Nosenko? 17 Mr.Helms. Not that I am aware of. 13 Mr. Goldsmith. Was the Warren Commission informed in . 19 April, 1964, that Nosenko was being placed into solitary 20 confinement? 21 The Warren Commission? Mr. Helms. 22 Mr. Goldsmith. Yes. 13 MR. Helms. This was part of my statement to the Chief Justice. I 4 could not tell him that I could not resolve the bona fides 5 without explaining to him that this our responsibility. 6 Mr. Goldsmith. Other than yourself, were any of the 7 other individuals responsible for handling Nosenko in contact 8 9 with the Warren Commission? I do not know, but I would not have thought 10 Mr. Helms. 11 so. Mr. Goldsmith. If the Warren Commission had been informed 12 by the Agency that Nosenko have been placed into solitary 13 confinement, I take it that you would have been the person 14 who would have so informed them. 15 Mr. Helms. Mr. McCone might have informed them. 16 Mr. Goldsmith. Or Mr. McCone. 17 Whose decision was it to place Nosenko in solitary 13 confinement? 19 Mr. Helms. I think this was a decision taken by various 20 people. We had to find a place to interrogate him. We had 21 to try and resolve the case, if we possibly could. WE spent 22 months trying to do this. And putting him into solitary 13 circumstances was just part of the effort to see if we could 24 get at the truth. 25

You will recall that this question of what to do about 2 him was taken up with the Deputy Attorney General at the time, 3 Nicholas Katzenbach, at a long meeting as to how we were going --4 to continue to handle this case, and the problem before the 5 house was clear to everyone but nobody was able to come up á with a very satisfactory solution except that we just had to 7 go ahead and do what we were doing and see if we could even-8 tually come up with a satisfactory resolution, and that satis-9 factory resolution never emerged. 10

Mr. Goldsmith. Was the CIA ever able to establish that it had legal authority for placing Nosenko in solitary confinement?

Mr. Helms. I do not know how you answer that question. As you know, I am not a lawyer. I would say that he was there without the blessing of a court. I would have thought that having held him that length of time that it would have been preferable if we did have a court order to hang on to him.

Mr. Goldsmith. YOu indicate that you consulted with Mr. 20 Katzenbach?

Mr. Helms. Yes.

22 Mr. Goldsmith. Were there any other government officials 23 consulted prior to taking this action?

Mr. Katzenbach. There were other people sitting in the room with Mr. Katzenbach from the Department of Justice. I do

"On April 4, 1964 I was taken for a physical check-up and a test on a lie detector somewhere in a house. A doctor hadgiven me a physical check-up and after that I was taken into another room for the test on a lie detector. After finishing the test, an officer of the CIA, John, has come in the room and talked with the technician.

"John started to shout that I was a phony and immediately several guards entered into the room. The guards ordered me to stand by the wall, to undress and check me. After that, I was taken upstairs in an attic room. The room had a metal bed attached to the floor in the center of this room.

"Nobody told me anything, how long I would be there or what would happen to me.

"After several days, two officers of CIA, John and Frank, started interrogations. I tried to cooperate and in the evening hours was writing forth on whatever I could recollect about the KGB. These officers were interrogating me about a month or two months. The tone of interrogations was hostile. Then they stopped to come and see me until the end of 1964.

"I was kept in this room until the end of 1964 and the beginning of '65. The conditions were very poor and difficult. I could have a shower once a week and once in a week I could shave. I was not given a toothbrush and toothpaste and food given to me was very poor. I did not have enough to eat and

"At the end of 1964, there were started again interrogations by several different officers. The first day, they kept me under 24 hours interrogation. All interrogations were done in a hostile manner.

"AT the end of those interrogations, when I was told it was the last one and asked what I wanted to be relayed to higher ups, I said I was a true defector and being under arrest about 385 days, I wanted to be put on trial, if I was found guilty, or released.

"Being in the cell, I was watched day and night through the TV camera. Trying to pass the time, a couple of times, I was making for friends a chess set and every time, when I finished those sets, immediately guards would enter into my cell and taking them from me. under the conditions that he just described.

Mr. Helms. We did our very best to resolve this problem and we certainly would not have taken these steps of putting him, if you recall, in Spartan circumstances, if we had not thought there was a possiblity it might get us to a goal that we were trying to reach. I do not think that we were trying to reach.

I do not think that we ever under-estimated the importance of this case, and we did everything we could do to try to resolve that, including later on giving him sweet, nice treatment with money and pleasant living circumstances and all of the rest of it.

Mr. Goldsmith. Does not the fact that Mr. Nosenko was
kept under these conditions reflect that the Agency, in fact,
did have a position regarding his bona fides, and at least
until such time that he was released from these conditions,
the Agency felt that he was not a bona fide defector?

Mr. Helms. I think the Agency was trying to establish whether or not he was a bona fide defector and it was decided to use these means of interrogation. The supposition has to be that the matter had not been resolved by other interrogation means and this was going to be trying an effort, to see if this would help.

Mr. Goldsmith. So that, for the three years Mr. Nosenko was kept under these conditions, the Agency did not have a

Mr. Helms. There may have been differing views, depending on whether this view obtained or that view obtained. Different people may have altered their position, but the Agency did nothave any position during this period. As I was saying, we were trying to resolve the issue.

Mr. Goldsmith. You would say that this was a technique in attempting to resolve the overall issue of bona fides?

Mr. Helms. That is exactly what I am saying.

Mr. Goldsmith. Later, when Mr. Nosenko was given -- and I think the record would demonstrate that, or corroborate that was given approximately \$80,000 after taxes and was allowed to work for the Agency on a contract basis or as a consultant do those factors reflect on the part of the Agency the position that, by this time, Nosenko was considered to be a bona fide defector?

Mr. Helms. I do not want to take any position or voice any opinion about anything that happened in the Agency after February, 1973 when I left.

Mr. Goldsmith. In light of that, if the Committee is able to demonstrate to you from the record that these actions

Mr. Goldsmith. You are unable to comment, then, on the significance --

Mr. Helms. I am unable to comment. I am trying to say we were trying to resettle him.

Mr. Goldsmith. Earlier, I asked you whether Nosenko had ever been given any drugs for the purpose of harrassing him psychologically or for the purpose of compelling him to tell the truth.

Are you able to state categorically that he was not given drugs for this purpose?

21 Mr. Helms. I would never state anything in this life 22 categorically, including that.

Mr. Goldsmith. What is the best statement you can give us on that?

Mr. Helms. The best statement I can give you on that is

1 that I believe on one occasion some people wanted to try and 2 use aids to interrogation in the form of drugs and I said I 3 wanted none of this done. I believe my wishes were carried 4 I have never heard anything to the contrary, but I cannot out. 5 swear to it. 6 Mr. Goldsmith. When did this incident take place? 7 I do not remember. Mr. Helms. Mr. Goldsmith. Who were the individuals involved? 8 9 Mr. Helms. It seems to me that some of the interrogators who were involved in talking to him wanted to try truth serums 10 or something of that kind, sodium penathol or whatever those 11 drugs are which are considered to be aids to interrogation. 12 Mr. Goldsmith. Was that Mr. Bagley or Mr. Murphy? Were 13 they of the feeling that drugs should be administered? 14 I would assume it was someone like that. Ι Mr. Helms. 15 am not sure who brought the question to me anymore. I do have 16 in the back of my head the fact that this did come up. 17 Mr. Goldsmith. If the Agency did administer drugs to 18 Nosenko, would there have been a record of this fact? 19 I certainly would have thought so. Mr. Helms. 20 Mr. Goldsmith. Would you dispute testimony to this 21 Committee by Mr. Nosenko that he was drugged by the CIA and 22 then interrogated? 23 Mr. Helms. He would have to demonstrate that this was 24 the case.

Mr. Goldsmith. Would any decision concerning the use of drugs necessarily involve Dave Murphy at some point?

Mr. Helms. It might have. You see, I do not remember whether, all during this period, Murphy was in charge of the SR Division or whether he was in charge for a time when someone else took over. I do not have the agency --

Mr. Goldsmith. I believe for this entire period Mr. Murphy was in charge of the SR Division.

Mr. Helms. He would have been involved in it. He is in charge of these people in his division. He was obviously attempting to counsel with them how it was to be conducted, so I would have thought he would have been a party of any inquiry at that time, or reference to me for permission at that time.

Mr. Goldsmith. Mr. Chairman, this concludes my line of inquiry with regard to this area. Do you have any questions?

I would defer to you.

Mr. Preyer. I have no questions on that area, but before you recess to go on your deposition hearing, I have a couple of questions in another area which I would like to ask.

Mr. Goldsmith. Fine.

Mr. Craig. Before leaving that area, I might inquire, you mentioned, you asked a question whether Ambassador Helms would dispute any evidence to the effect that Mr. Nosenko was drugged. If such evidence does exist, you might be able

to bring that to Mr. Helms' attention and he might be able to

Mr. Goldsmith. As I said, the Committee has received testimony by Mr. Nosenko in which he specifically stated that he was drugged and then, after being drugged, he was interrogated. That is why this is an issue before the Committee at this time.

Mr. Craig. Thank you.

I assume those are only on Oswald's conversations since the Calderon 4 5 conversation you were talking about was with some unidentified man. Mr. Goldsmith. Mr. Ambassador, what is the Domestic Exploitation Section?

Mr. Helms. Well, I don't know that I recall exactly what it is, unless it was an interrogation unit that the Miami station used to interrogate refugees and other people coming over from Cuba. If it is not that, I don't remember what the Domestic Exploitation Section was.

Mr. Goldsmith. Is it possible that the Domestic Exploitation Section could have been a component within SAS?

Mr. Helms. Possibly. But then SAS had control over the Miami station and I would have thought it was somewhere in that complex.

Mr. Goldsmith. Did the use of the Domestic Exploitation Section in any way violate the AGency's charter?

Mr. Helms. Not that I ever heard of. I think the Domestic Exploitation Section was there, FBI knew about it, the intelligence community knew about it, it had a specific purpose, I don't think there is anything about it that violated the Agency charter. As far as I know I never considered it in that category.

Mr. Goldsmith. What again was the specific purpose of this section?

Mr. Helms. I don't understand your question. I am sorry. Mr. Goldsmith. Well, could this Domestic Exploitation Section have been used for the purpose of establishing a contact between the Agency and Luisa Calderon so that her assistance or services could be solicited for the Agency?

Mr. Helms. My recollection is I don't recall any Domestic Exploitation SEction that was recruiting agents.

Mr. Goldsmith. Other than A. M. Mug, the Cuban defector to hwom you made reference earlier today, did the AGency obtain additional information pertaining to Oswald and the assassination from sources or agents connected in some way with DGI?

related to the Mexican aspects of it.

Recently Premier Castro made a very harsh speech attacking the United States, as we have read in the paper, and over the course of this Youth Festival that was held there several others were brought forward. (1), the Consul in the Mexican Embassy there, Mr. Azcue, apparently made a speech to the Youth Festival which in effect said the man who came to the Cuban Embassy in Mexico, was not Oswald, or he had questions about whether it was Oswald. So for some reason, perhaps on his own or his government, he has floated the idea of two Oswalds.

Now, whether to confuse the issue or not, I don't know. I think this Committee can probably demonstrate that conclusively by good hard evidence that there was only one Oswald and that Mr. Azcue is wrong on that score.

The other point which gives me more concern is the attack Mr. Castro made in his allegations that CIA in this country had foreknowledge of the assassination of President Kennedy and thatthey deliberately tried to pin the blame on the Cuban Government. That apparently is the new line and he has made that charge, in a public forum, for all the world to hear. How much the world would believe that, knowing the source it comes from, I suppose is debatable, but I imagine many Marxist countries of the world are taking that as gospel now.

So the question I wanted to ask is on the second point, and it is as to his charge that the CIA had foreknowledge of

the assassination to pin it on the Cuban Governement.

Do you have any cmments that you would like to make on that, sir?

Mr. Helms. Sir, the only comment I would like to make on that was, or is, not was, that I never knew of anyone in the CIA that alleged that he knew about President Kennedy's assassination beforehand. I never heard that asserted by a single soul, ever. I don't believe there was anyone in the CIA who had any foreknowledge.

I recall personally that I was sitting having lunch with Director McCone and two or three other CIA officials when his Executive Assistant, Walter Elder, walked into the room and said President Kennedy had been shot, and if I have ever seen surprise and hooror on the group of faces around me it was on that occasion. So I can't conceive that either Director McCone or I had ever heard of this thing and I have never heard it alleged that anybody else had, and I would like to make one further comment about Mr. Azcue, and that is that in a Communist state individuals of the local government do not appear at international conferences and make speeches (a), without specific authorization, and, (b), specific instructions as to what they are to say and what they are to cover.

I found it equally interesting that Mr. Cubela, the famous Mr. AMLASH, who has dotted the transcripts of lord knows how many Congressional hearings, also appeared, having been released

1 from jail, as stated in the Washington Post, to assert that he 2 had never been a double agent, that he had only worked for a 3 certain period of time for the CIA. Why he was asked to make 4 the statement, why he was released from jail for the purpose 5 of doing it, I don't know. I could hazard an opinion. But I can only say that these conferences are orchestrated and they 6 are orchestrated very skillfully and orchestrated for a purpose 7 Mr. Preyer. Do you know anything of any 23 page document 8 9 that I understand Mr.Castro says he has outlining or substantiating his charges? 10 Mr. Helms. No sir, I don't know anything about it. 11 Didn't he give Senator McGovern a document one time that 12 Senator brought back with him, or was it Senator Church? I saw 13 something in the newspapers about this. I haven no firsthand 14 knowledge. 15 I got the impression this was a recent com-Mr. Prever. 16 pilation. 17 Mr. Helms. I see. 18 Mr. Preyer. Probably on the order of Mr. Cubela and Mr. 19 Azcue's appearances. It always seemed to me a little surpris-20 ing Mr. Cubela, if he was guilty of all the things alleged, 21 that he wasn't preemporily shot, rather than being in prison. 22 Well, I appreciate your comments on that. That is very .3 helpful. 24 Mr. Goldsmith. This would be an appropriate time,

Mr. Preyer. Very well.

Mr. Goldsmith. I might point out, Mr. Chairman, that if we do break at this time, that under the Committee Rules, the Ambassador would be entitled to make a statement at this time. I would also be prepared to have the Ambassador make a statement at the deposition.

Mr. Preyer. Yes. Under our rules each person who testifies, at the conclusion of the Committee portion of the hearing is entitled to make a statement of five minutes, if he cares to, explaining any aspect of the testimony further, or any statement he may care to make.

> Mr. Helms. You mean if he has anything left to say? Mr. Preyer. Yes.

Mr. Helms. Thank you very much, sir.

Mr. Preyer. Thank you, Ambassador Helms. We appreciate very much your cooperation in this. Sorry we have interrupted you a number of times today, but I hope we will be able to complete the testimony.

Mr. Goldsmith. For the record, I would like to clarify that I don't believe that the Committee will have a Notary available for the deposition that is about to begin in about a half an hour or so, so I would like to indicate for the record,
