The Communist Party of the United States has betrayed itself!

it has turned itself into the tradional lever of a foreign power to overthrow the
Goverment of the United States, not in the name of freedom or high ideals, but in
sorvile conformity to the wishes of the Soviet Union and in anticipation of Soviet Rus-
sia's complete domination of the American continent.

The Forster's and the Flynn's of the subsidized Communist Party of the United
States have shown themselves to be willing, gullible messengers of the Kremnins Interna-
tionalist propaganda.

There can be no international solidarity with the arch-betrayers of that most sublme ideal.

There can be no sympathy for those who have turned the idea of communism into a vill curse to western man.

The Soviets have committed crimes unsurpassed even by their early day capitalist counterparts, the imprisonment of their own peoples, with the mass extermination so typical of Stalin, and
the individual suppression and regimentation under Krushchev.

The deportations, the purposeful curtailment of diet in the consumer slighted population of Russia, the murder of history, the prostitution of art and culture.

The communist movement in the U.S., personalized by the Communist Party U.S.A., has turned itself into a "valuable gold coin" of the Kremlin. It has failed to denounce any actions of the Soviet Government when similar actions on the part of the U.S. Government bring pious protest. Examples:

Commission Exhibit 97—Continued
Only by declaring itself to be, not only not dependent upon, but opposed to, Soviet domination and influence, can dormant and disillusioned person's hope to unite to free the radical movement from its inertia.

Through the refusal of the Communist Party U.S.A. to give a clear cut condemnation of Soviet piratical acts, progressives have been weaken into a stale class of fifth columnist of the Russians.

In order to free the hesitating and justifiably uncertain, future activist for the work ahead we must remove that obstacle which has so efficiently retarded him, namely the devotion of Communist Party U.S.A. to the Soviet Union, Soviet Government, and Soviet Communist International Movement.

It is fairly foreseeable that a coming economic, political or military crisis, internal or external, will bring about the final destruction of the capitalist system, assuming this, we can see how preparation in a special party could safeguard an independent course of action after the debacle, an American course.
steadfastly opposed to intervention by outside, relatively stable foreign powers, no matter from where they come, but in particular, and if necessary, violently opposed to Soviet intervention.

No party of this-type can attract into its ranks more than a nominal number of fundamental radicals.

It is not the nature of such an organization to attract such a membership, as let's say, the Republicans or even the Socialist Party, but it is possible to enlist the aid of disappointed members of the Socialist Party and even some from more "respected," (from a capitalist viewpoint) parties.

But whereas our political enemies talk loudly now, they have no concept of what total crisis means.

faction
The corps which has the greater basis in spirit and the most far-sighted and ready membership of the radical futurist, will be the decisive factor.

We have no interest in violently opposing the U. S. Government, why should we manifest opposition when there are
far greater forces at work, to bring-about the fall of the United States Government, than we could ever possibly muster.

We do not have any interest in directly assuming the head of Government in the event of such an all-finising crisis. As dissentent Americans we are merely interested in opposing foreign intervention which is a readily foreseeable conclusion if one believes in the theory of crisis.

The emplacement of a separate, democratic, pure communist society is our goal, but one with union-communes, democratic socializing of production and without regard to marxist

the twisting apart of marxism communism by other powers.

property

The right of private personal property, religious tolerance and freedom of travel (which have all been violated under Russian “Communist” rule) must be strictly observered.

Resoufullness and patient working towards the aforesaid goal’s are preferred rather than loud and useless manifestation’s of protest. Silent observance of our principles is of primary importance.

Commission Exhibit 97—Continued
But these preferred tactics now, may prove to be too limited in the near future, they should not be confused with slowness, indecision or fear, only the intellectually fearless could even be remotely attracted to our doctrine, and yet this doctrine requires the utmost restraint, a state of being in itself majestic in power.

This is stoicism, and yet stoicism has not been effected for many years, and never for such a purpose.

There are organizations already formed in the United States, who have declared they shall become effective only after the military debacle of the United States. Organizations such as the minute men, or the opposite of a stoical organization, but these performers are simply preparing to redefend in their own back yards, a system which they take for granted will be defeated militarily, a strange thing to hear from "patriots". These armed groups represent hard core American capitalist supporter's. There will also be small armed communist and probably Fascist groups. There will also be anarchist and religious
Groups at work.

However, the bulk of the population will not adhere to any of these group's, because they will not be inclined to join any of the old factions with which we are all so familiar.

But the people will never accept a new order presented by politicians or opportunist, necessary

Logically, they will deem it necessary to oppose those systems of government against educated

whom they have been educated, but they will be against anything resembling their former

Steadfastly opposed to the revival of the old forces they will seek a new form.

This will be the sentiment of/ masses.

But any organization cleverly manipulating words may sway the masses.

This is where a safeguard is necessary.

And not only a safeguard, but a safety valve, to shut off opportunist forces from within, and foreign powers from without.

There can be no substitute for organization and procurement work. Towards the aforesaid ideals and goals.
work is the key to the or future door, but failure to apply that key because of possible armed opposition in our hypothetical, but very probable crisis, is as useless as trying to use force now to knock down the door.

Armed Defenses of our ideals must be an accepted doctrine after the crisis, just as refraining from any demonstrations of force must be our doctrine in the mean time.

No man, having known, having lived, under the Russian Communist and American Capitalist system, could possibly make a choice between them, there is no choice, one offers oppression the other poverty. Both offer imperialistic injustice, tinted with two brands of slavery.

But no rational man can take the attitude of "a curse on both your house's". There are two world systems, one twisted beyond recognition by its misuse, the other decendant and dying in its final evolution.

A truly democratic system would combine the better qualities of the two upon an American
foundation, opposed to both world systems as they are now.

This than is our ideal.

Membership in this organization implies adherence to the principle of simple distribution of information about this movement to others and acceptance of the idea of stoical readiness in regards to practical measures once instituted in the crisis.
