Dear John—

Do you think you will get to come home in July? You did say that about that time you would finish school and get done. Do you do. I thought Detroit and tell you that Mary has to do a needle gal. I received two letters from her and she wrote very nice letters. In her mother and father both doing very well. How about your sister or brother? Also, how are you working?

I will send you a picture of me for Mother's Day and also a picture of all the girls. How about one of you and Margie. Glad you and I have been working on the land on Sunday's. And I do think we will ever get the problem under control. Study hard and get good.

Love Always,

[Signature]
Dear John,

We are having a nice spell and it is quite cool today. In fact, the last three days we have worn winter clothes.

How much longer do you have for school? Sure hope you get to come home.

I am going to disappoint you about my pictures for Mother's Day. Didn't forget to have it made, just too busy, but will take time out this week.

We are having a big report at the office. The Mr. has decided to have lunch on the shady side. The big boss is supposed to be in this week. Myself and one of the men agents are the only ones hanging on. Damn aside, they might close the office so I have been scouting around but so far haven't found another policy or job, as good as the company had.

So hope you will send as much money as possible home as long as I get.
The car paid for. After it is paid for it won't be so hard to make ends meet. $4.25 is a lot of money each month for me to find out what the payment on the house and all other bills.

I sent Morito a letter today to write him the week. Hope you are well.

P.S. We had had fire 1336 accidents and exploded yesterday killing 22 people.
