With reference to the weapon being used by the man next to him, whom he believes was OSWALD, he stated that he believes it was a re-conditioned Army gun, in that the stock and metal parts were shiny. It had on it a sling made of dark or very dark material. This sling was hooked to the gun underneath the stock, near the muzzle, and at the rear of the stock. He could furnish no information concerning the telescopic sight and was unable to advise whether the scope was round on the top or side of the gun. He commented also that to him it appeared that the trigger guard, which was of a light or silver color, had been scratched, but subsequently polished, in that it was shiny. He expressed the opinion that even though he saw the gun only briefly, he believed he could identify it if he saw it again.

With reference to his identification of the man shooting in the booth next to him, STERLING WOOD advised that he was not positive the man was LEE HARVEY OSWALD, but after seeing OSWALD's photograph in the news, he is satisfied in his mind that the person in the booth referred to above, was actually LEE HARVEY OSWALD.
